Re: MDR #: M2-03-1794-01
IRO Certificate No.: 5055

In accordance with the requirement for TWCC to randomly assign cases to IROs, TWCC assigned your case to ___ for an independent review. ___ has performed an independent review of the medical records to determine medical necessity. In performing this review, ___ reviewed relevant medical records, any documents provided by the parties referenced above, and any documentation and written information submitted in support of the dispute.

The independent review was performed by a matched peer with the treating health care provider. Your case was reviewed by a physician who is Board Certified in Orthopedics.

Clinical History:
The records presented for review contained an extremely limited clinical history. Apparently, this male claimant suffered a work-related injury on ___. Correspondence dated 06/23/03 indicates that he was 80+% improved following left knee arthroscopy performed on 04/11/03. Thoracic musculoskeletal back pain with negative MRI was noted in that correspondence, with bone scan results pending.

Disputed Services:
Purchase of interferential muscle stimulator.

Decision:
The reviewer agrees with the determination of the insurance carrier and is of the opinion that a muscle stimulator is not medically necessary in this case.

Rationale:
Literature and the reviewers experience indicate that active exercises have proven more valuable than passive electrical stimulation for rehabilitation.

I am the Secretary and General Counsel of ___ and I certify that the reviewing physician in this case has certified to our organization that there are no known conflicts of interest that exist between him and any of the treating physicians or other health care providers or any of the physicians or other health care providers who reviewed this care for determination prior to referral to the Independent Review Organization.

We are simultaneously forwarding copies of this report to the payor and the Texas Workers' Compensation Commission. This decision by ___ is deemed to be a Commission decision and order.
