Notice of Determination

MDR TRACKING NUMBER: M2-07-0459-01

The independent review for the patient named above has been completed.

- Parker Healthcare Management received notification of independent review on 12.01.06.
- Faxed request for provider records made on 12.01.06.
- The case was assigned to a reviewer on 12.13.06.
- The reviewer rendered a determination on 12.28.06.
- The Notice of Determination was sent on 12.29.06.

The findings of the independent review are as follows:

Questions for Review

Medical necessity of 10 sessions of chronic pain management.

Determination

PHMO, Inc. has performed an independent review of the proposed care to determine if the adverse determination was appropriate. After review of all medical records received from both parties involved, the PHMO, Inc. physician reviewer has determined to **uphold the denial** on the requested service(s).

Summary of Clinical History

The claimant was injured while working for . He was pulling an oil filter off of a truck and felt a pop in the right shoulder. Since the time of the accident, the patient has had an MUA, surgery, injections, conservative care, psychological care and is now under medicinal control for the pain. There is also documentation from Shorman Solutions that indicates that the claimant has received previous work hardening (20 sessions) and CPMP (15 sessions).

Clinical Rationale

In the documentation, it revealed the claimant had previously had work hardening and CPMP. Therefore, the claimant has already had the services requested, and those services apparently failed to have an impact in regards patient recovery. As a result, a repeat of services that have already been established as clinically ineffective is not supported as medically necessary.
