In accordance with 28 TAC §5.4911, the Texas Windstorm Insurance Association (TWIA) has filed revised residential application forms with the Texas Department of Insurance for approval:

- Dwelling policy application
- Condominium policy application
- Manufactured home policy application
- Tenant policy application

TWIA is implementing an upgraded policy administration system and intends to use these applications in the upgraded system. As a part of this process, TWIA is transitioning from electronic applications to printable applications. TWIA explains that the applications will still be filled out electronically but will result in printable final products that are easier for agents and policyholders to review. TWIA notes that the information requested in the revised application forms will be substantially similar to the information requested in the existing application forms. This transition is part of TWIA's policy administration system upgrades, planned for release at the end of April 2022.
