SUBCHAPTER J. Examination Expenses and Assessments 28 TAC §7.1001

- 1. INTRODUCTION. The Commissioner of Insurance (Commissioner) adopts new Subchapter J, relating to Examination Expenses and Assessments, and new §7.1001, concerning assessments to cover the expenses of examining domestic and foreign insurance companies and self-insurance groups providing workers' compensation insurance. The new subchapter and section are adopted without changes to the proposed text published in the December 2, 2011 issue of the *Texas Register* (36 TexReg 8164).
- 2. **REASONED JUSTIFICATION.** The new subchapter and section are necessary to establish the examination expenses to be levied against and collected from each domestic and foreign insurance company and each self-insurance group providing workers' compensation insurance examined during the 2012 calendar year. The new subchapter and section are also necessary to establish the rates of assessment to be levied against and collected from each domestic insurance company examined during the 2012 calendar year, based on admitted assets and gross premium receipts for the 2011 calendar year, and from each foreign insurance company examined during the 2012 calendar year, based on a percentage of the gross salary paid to an examiner for each month or part of a month during which the examination is made. The new section is based on requirements in the Insurance Code §§201.001(a)(1), (b), and (c); 401.151; 401.152; 401.155; 843.156(h); and 36.001; and the Labor Code §407A.252(b).

The following paragraphs provide an explanation of the methodology used to determine examination overhead assessments for 2012.

In general, the Department's 2012 revenue need (the amount that must be funded by maintenance taxes or fees, examination overhead assessments, and premium finance exam assessments) is determined by calculating the Department's total cost need, and subtracting from that number funds resulting from fee revenue and funds remaining from fiscal year 2011.

To determine its total cost need, the Department combined costs from the (i) appropriations set out in Chapter 1355 (H.B. 1), Acts of the 82nd following: Legislature, Regular Session, 2011 (the General Appropriations Act), which come from two funds, the General Revenue Dedicated - Texas Department of Insurance Operating Account No. 0036 (Account No. 0036) and the General Revenue Fund - Insurance Companies Maintenance Tax and Insurance Department Fees; (ii) an estimate of other costs statutorily required to be paid from those two funds, such as fringe benefits and statewide allocated costs; (iii) an estimate of the cash amount necessary to finance both funds from the end of the 2012 fiscal year until the next assessment collection period in 2013; and (iv) costs associated with implementation of Senate Bill 1291, 82nd Legislature, Regular Session, effective September 1, 2011 (SB 1291), which requires the creation of an account with the Texas Treasury Safekeeping Trust Company to be used exclusively to pay examination costs associated with salary, travel, or other personnel expenses.

To complete the calculation of revenue need, the Department reduced the total cost need by subtracting the estimated ending fund balance for fiscal year 2011 (August 31, 2011) and estimated fee revenue to be collected in fiscal year 2012. The resulting

balance is the estimated revenue need that must be supported during the 2012 fiscal

year by the following funding sources: the maintenance taxes or fees, exam overhead

assessments, and premium finance exam assessments.

The Department determined how to allocate the revenue need to be attributed to

each funding source using the following method:

Each section within the Department that provides services directly to the public or

the insurance industry allocated the costs for providing those direct services on a

percentage basis to each funding source. The Department applied these percentages

to each section's annual budget to determine the total direct cost to each funding

source. The Department calculated a percentage for each funding source by dividing

the total directly allocated to each funding source by the total of the direct cost. The

Department used this percentage to allocate administrative support costs to each

funding source. Examples of administrative support costs include services provided by

human resources, accounting, budget, the Commissioner's administration, and

information technology. The Department calculated the total of direct costs and

administrative support costs for each funding source.

The Department then subtracted the fiscal year 2012 estimated amount of

examination direct billing revenue from the amount of the total costs for the examination

funding source. The resulting balance is the amount of the examination revenue need

for the purpose of calculating the examination overhead assessment rates.

For 2012, it was also necessary for the Department to add to the revenue need

the costs associated with implementing Rider 19, page I-26, Chapter 1355 (H.B. 1) of

the General Appropriations Act. This rider authorized the Comptroller of Public Accounts to reimburse the General Revenue Fund from Account No. 0036 for up to \$10,000,000 for the cost of insurance premium tax credits for examination fees and overhead assessments.

To calculate the assessment rates, the Department allocated 50 percent of the revenue need to admitted assets and 50 percent to gross premium receipts. The Department divided the revenue need for gross premium receipts by the total estimated gross premium receipts for calendar year 2011 to determine the proposed rate of assessment for gross premium receipts. The Department divided the revenue need for admitted assets by the total estimated admitted assets for calendar year 2011 to determine the adopted rate of assessment for admitted assets.

The following paragraphs provide a brief summary and analysis of the reasons for the adopted section.

assessment applicable to a domestic insurance company. Section 7.1001(c)(2)(A) is

Section 7.1001(c)(4) is necessary to provide that the Department will base the overhead assessments on the assets and premium receipts reported in a domestic insurance company's annual statement. Section 7.1001(c)(5) is necessary to provide that for the purpose of applying paragraph (2)(B) of the subsection, the term "gross premium receipts" does not include insurance premiums for insurance contracted for by a state or federal government entity to provide welfare benefits to designated welfare recipients or contracted for in accordance with or in furtherance of the Human Resources Code, Title 2, or the federal Social Security Act (42 U.S.C. 5. STATUTORY AUTHORITY. The new section is adopted under the Insurance Code

§§201.001(a)(1), (b), and (c); 401.151; 401.152; 401.155; 843.156(h); and 36.001; and

the Labor Code §407A.252(b).

The Insurance Code §201.001(a)(1) states that the Texas Department of

Insurance operating account is an account in the general revenue fund, and that the

account includes taxes and fees received by the Commissioner or Comptroller that are

required by the Insurance Code to be deposited to the credit of the account. Section

201.001(b) states that the Commissioner shall administer money in the Texas

Department of Insurance operating account and may spend money from the account in

accordance with state law, rules adopted by the Commissioner, and the General

Appropriations Act. Section 201.001(c) states that money deposited to the credit of the

Texas Department of Insurance operating account may be used for any purpose for

which money in the account is authorized to be used by law.

The Insurance Code §401.151 provides that a domestic insurer examined by the

Department or under the Department's authority shall pay the expenses of the

examination in an amount the Commissioner certifies as just and reasonable.

The Insurance Code §401.151 also provides that the Department shall collect an

assessment at the time of the examination to cover all expenses attributable directly to

that examination, including the salaries and expenses of department employees and

expenses described by the Insurance Code §803.007. Section 401.151 also requires

that the Department impose an annual assessment on domestic insurers in an amount

sufficient to meet all other expenses and disbursements necessary to comply with the

laws of Texas relating to the examination of insurers. Additionally, Section 401.151

states that in determining the amount of assessment, the Department consider the insurer's annual premium receipts or admitted assets, or both, that are not attributable to 90 percent of pension plan contracts as defined by Section 818(a), Internal Revenue Code of 1986: or the total amount of the insurer's insurance in force.

The Insurance Code §401.152 provides that an insurer not organized under the laws of Texas shall reimburse the department for the salary and expenses of each examiner participating in an examination of the insurer and for other Department expenses that are properly allocable to the Department's participation in the examination. The Insurance Code §843.156(h) provides that the Insurance Code Chapter 401 Subchapter D applies to an HMO, except to the extent that the Commissioner determines that the nature of the examination of an HMO renders the applicability of those provisions clearly inappropriate.

The Labor Code §407A.252(b) provides that the Commissioner of Insurance may recover the expenses of an examination of a workers' compensation self-insurance group under the Insurance Code Article 1.16 (which was recodified as the Insurance Code §§401.151, 401.152, 401.155, and 401.156 by HB 2017, 79th Leg.
