2. Questions

The RME-U for a company is responsible for supervising **all** work performed by the company and to ensure that the underground fire main for a fire protection sprinkler system, is installed, maintained, or serviced according to the standards provided by law.

1. Will you be the only RME-U for the company? Yes No

If yes, please answer questions 2-3.

If no, please complete Section 3.

2. As the only RME-U for the company, how will you provide the required supervision when you are in another state? Please explain.

The RME-U for an installation shall attach the underground material and test certificates to the system to comply with adopted codes and standards. Some local authorities having jurisdiction (AHJ) will require the project RME-U to be present for final testing.

3. Regarding the above statement, as the only RME-U, how will you accomplish this if you are out of state? Please explain.

3. Signature

- I am familiar with and will comply with the requirements in Chapter 6003 of the Texas Insurance Code and Section 34.700 of Texas Administrative Code, Title 28, the Fire Sprinkler Rules.
- I verify that the information on this application and its attachments are true and correct.
- I understand that knowingly providing a false answer to any question or submitting false information or documents with this application may be tampering with a governmental record, which is punishable under the Texas Penal Code 37.10.
