

APPEAL NO. 93935

This appeal arises under the Texas Workers' Compensation Act, TEX. LAB. CODE ANN. § 401.001, *et seq.* (1989 Act) (formerly V.A.C.S., Article 8308-1.01, *et seq.*). A contested case hearing was held on July 19 and August 9, 1993 in (city), Texas, with (hearing officer) presiding. She determined that claimant was not injured on (date of injury), while working for (employer). Carrier conditionally appealed findings of fact that claimant worked for employer and that addressed claimant's wages; carrier makes it clear that if claimant filed no appeal, carrier then withdraws its conditional appeal. As of November 29, 1993, the record of this case contains no appeal by claimant. The decision of the hearing officer was distributed to the parties on October 4, 1993; the statutory time for filing an appeal has passed. The decision of the hearing officer is final and is the final administrative action in this case. See Sections 410.202 and 410.204.
