

APPEAL NO. 020577  
FILED APRIL 4, 2002

This appeal arises pursuant to the Texas Workers' Compensation Act, TEX. LAB. CODE ANN. § 401.001 *et seq.* (1989 Act). A contested case hearing was held on February 20, 2002. The hearing officer determined that the appellant (claimant) had not sustained a compensable repetitive trauma injury on \_\_\_\_\_, and that, therefore, the claimant did not have disability.

Both the claimant and the claimant's representative filed timely appeals. The claimant only states that he appeals the decision; the claimant's representative appeals based on sufficiency of the evidence. The respondent (carrier) responds, urging affirmance.

DECISION

Affirmed.

We have reviewed the complained-of determinations and conclude that the issues involved fact questions for the hearing officer. The hearing officer reviewed the record and decided what facts were established. The hearing officer commented that the claimant had been performing many different duties in his light-duty position and that he had failed to prove that those duties were "physically repetitious or traumatic." We conclude that the hearing officer's determinations are not so against the great weight and preponderance of the evidence as to be clearly wrong or manifestly unjust. Cain v. Bain, 709 S.W.2d 175, 176 (Tex. 1986).

Because we are affirming the hearing officer's decision that the claimant had not sustained a compensable injury, the claimant cannot, by definition in Section 401.011(16), have disability.

The hearing officer's decision and order are affirmed.
