

APPEAL NO. 040937  
FILED JUNE 7, 2004

This appeal arises pursuant to the Texas Workers' Compensation Act, TEX. LAB. CODE ANN. § 401.001 et seq. (1989 Act). A contested case hearing was held on March 25, 2004. The hearing officer determined that appellant (claimant) sustained a compensable injury on \_\_\_\_\_, and that she had disability from October 27 through December 1, 2003. Claimant appealed, contending that she had disability for a longer period than that found by the hearing officer. Respondent (carrier) responded that the Appeals Panel should affirm the hearing officer's decision and order.

DECISION

We reverse and remand.

The compact disc recording of the hearing is blank, so the record cannot be reviewed. Accordingly, we must remand this case for reconstruction of the record.

We reverse the hearing officer's decision and order and remand for reconstruction of the record.

Pending resolution of the remand, a final decision has not been made in this case. However, since reversal and remand necessitate the issuance of a new decision and order by the hearing officer, a party who wishes to appeal from such new decision must file a request for review not later than 15 days after the date on which such new decision is received from the Texas Workers' Compensation Commission's Division of Hearings, pursuant to Section 410.202 which was amended June 17, 2001, to exclude Saturdays and Sundays and holidays listed in Section 662.003 of the Texas Government Code in the computation of the 15-day appeal and response periods. See Texas Workers' Compensation Commission Appeal No. 92642, decided January 20, 1993.
