## ***Published Reports***

The ***Quarterly Legislative Report on Market Conditions*** data are gathered from the Call for Quarterly Experience and the Call for Quarterly Experience-Workers' Compensation Deductible Plans. The report provides information about market share and losses and to meet legislative requirements.

The ***Texas Liability Closed Claim Annual Report*** is developed from data gathered from companies reporting liability insurance claim settlements via Quarterly Closed Claim Reports, Annual Aggregate Report, and Closed Claim Reconciliation Forms. The annual report provides data concerning the liability insurance claim settlement process and its relationship with the civil justice system in Texas.

The ***Texas Disallowed Expense Annual Report*** captures "disallowed" expenses on a countrywide basis that are used in rate hearings.

The ***Texas Title Insurance Agent Statistical Report*** and the ***Texas Title Experience Report*** provide information on annual income and expenses in the title industry.

Data collected from unit statistical reports are used to produce the ***Texas Schedule Z Report***, the ***Year-End Reports***, and ***Job Classification Relativities***. Each report is based on the effective year of the policy.

Additional reports include the ***State of Texas Property and Casualty Insurance Experience by Coverage and Carriers*** (often called the ***Texas Statutory Page 14 Report***) and the ***Insurance Expense Exhibit (IEE)***, which are compilations of data downloaded from the National Association of Insurance Commissioners (NAIC).
