

**DECISION AND ORDER**

This case is decided pursuant to Chapter 410 of the Texas Workers' Compensation Act and Rules of the Division of Workers' Compensation adopted thereunder.

**ISSUE**

A contested case hearing was held on March 18, 2009, to decide the following disputed issue:

1. Is the preponderance of the evidence contrary to the decision of Medical Fee Dispute Resolution Findings and Decision that Dr. LWB, M.D., Petitioner, is not entitled to reimbursement of a total of \$471.00 under CPT code 99214 for dates of service of April 2, 2008, May 7, 2008, June 11, 2008, and August 13, 2008, at \$117.75 for each visit for the compensable injury of \_\_\_\_\_?

**PARTIES PRESENT**

Claimant did not appear and his appearance was waived by the parties. Petitioner appeared and was represented by NSM, attorney. Respondent/Carrier appeared and was represented by BWJ, attorney.

**BACKGROUND INFORMATION**

Claimant sustained a compensable injury on \_\_\_\_\_. Dr. B, Claimant's treating doctor, referred Claimant to Dr. LWB, Petitioner. Dr. LWB examined Claimant on April 2, 2008, May 7, 2008, June 11, 2008, and August 13, 2008. According to the medical records, Dr. LWB examined Claimant on April 2, 2008, May 7, 2008, and August 13, 2008, for pain and a request to refill medications, but did not indicate why he examined Claimant on June 11, 2008. Dr. B billed Carrier on June 24, 2008, for the office visits of April 2, 2008, May 5, 2008, and June 11, 2008, and billed Carrier on September 14, 2008, for the office visit of August 13, 2008. Dr. LWB billed Carrier for \$600.00 at the rate of \$150.00 for each of the four office visits, listed the American Medical Association (AMA) Physician's Current Procedural Terminology (CPT) code as 99214, and submitted documentation for payment. In accordance with the Division's 1996 Medical Fee Guideline, Division Rule 134.201, Dr. LWB would be entitled to a reimbursement for the four office visits in the sum of \$471.00 based on the maximum allowable reimbursements (MARs) under Division Rule 134.202(c), and subject to Dr. LWB submitting the supporting documentation to Carrier for payment.

After conducting audits on August 5, 2008, and on October 17, 2008, Carrier denied Dr. LWB's bills due to the level of services exceeding the treatment guidelines that require health care providers to provide treatment in accordance with the current edition of the Official Disability Guidelines (ODG) under Division Rule 137.100; and the lack of information and documentation to support the level of service being billed in accordance with the CPT code 99214 with a diagnosis code of 722.10 for displacement of lumbar intervertebral disc without myelopathy,

847. 2 for a lumbar sprain, and 338.21 for chronic pain due to trauma. Carrier specifically noted in its denial of payment that Dr. LWB had submitted documentation for each level of service with the exception of the June 11, 2008, visit, that indicated that the nature of Claimant's presenting problems were moderate to high severity in accordance with the CPT code 99214, but that the documentation as submitted by Dr. LWB did not support the level of services. Carrier noted in its denial that Dr. LWB had failed to document why he examined Claimant on June 11, 2008. On October 18, 2008, Dr. LWB requested reconsideration which Carrier denied on November 26, 2008. Dr. LWB timely requested Medical Dispute Resolution (MDR) in accordance with Division Rule 133.307(c).

On December 17, 2008, a Medical Fee Dispute Resolution Findings and Decision (MFDRFD) was rendered by a MDR reviewer. The MFDRFD determined that based on the documentation submitted by the parties, and in accordance with Texas Labor Code §413.031, Dr. LWB was not entitled to a reimbursement total of \$471.00 under CPT code 99214 for dates of service of April 2, 2008, May 7, 2008, June 11, 2008, and August 13, 2008, at \$117.75 for each visit for the compensable injury of \_\_\_\_\_.

Under CPT code 99214 with a diagnosis code of 722.10 for displacement of lumbar intervertebral disc without myelopathy, 847. 2 for a lumbar sprain, and 338.21 for chronic pain due to trauma, the ODG states as follows:

***"Doctor's visit for the evaluation of an established patient for a detailed history, examination, and a medical decision of moderate complexity.*** Office or other outpatient visit for the evaluation and management of an established patient, which requires at least two of these three key components: A detailed history; A detailed examination; Medical decision making of moderate complexity. Counseling and/or coordination of care with other providers or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family's needs. Usually, the presenting problem(s) are of moderate to high severity. Physicians typically spend 25 minutes face-to-face with the patient and/or family."

According to the MFDRFD, the CPT code 99214 requires a detailed history, detailed examination, and medical decision making of moderate complexity, and the physician typically spending 25 minutes face-to-face with the patient and or family for each visit. The MDR reviewer correctly determined that the documentation submitted by Dr. LWB were templates for the April 2, 2008, May 7, 2008, June 11, 2008, and August 13, 2008, dates of service, and lacked the required information to bill for CPT code 99214. The MDR reviewer correctly determined that Dr. LWB failed to provide a detailed history as to why Claimant presented to the office, failed to complete an extended history of present illness, failed to provide problem pertinent review of systems that extended to include a review of a limited number of additional systems that were pertinent to Claimant's past family and/or social history. In addition, the MDR reviewer correctly determined that Dr. LWB failed to conduct a detailed examination of Claimant that included an extended examination of the affected body area, and other symptomatic or related symptoms; and correctly determined that Dr. LWB failed to make a medical decision of moderate complexity that involved a number of diagnosis and/or management options, the amount and/or complexity of the data to be reviewed, and the risks of complication, morbidity, and or mortality.

Dr. LWB and Carrier offered into evidence copies of the *American Medical Association 2008 Current Procedural Terminology, Evaluation and Management Services Guide*, concerning CPT code 99214, and the three components of a doctor's visit for the evaluation of an established patient to include a detailed history, examination, and a medical decision of moderate complexity. Dr. LWB and Carrier also introduced into evidence copies of medical articles that further explained in more detail what is included in the component parts of a detailed history, examination, and a medical decision of moderate complexity. Dr. LWB testified that he would rely upon the documentary evidence and the argument of NSM, his attorney, in support of his position on the disputed issue. RB, a nurse with Carrier, testified that the MFDRFD was consistent with the Carrier's decision to deny payment to Dr. LWB.

The preponderance of the evidence is not contrary to the decision of the MFDRFD that Dr. LWB is not entitled to reimbursement of a total of \$471.00 under CPT code 99214 for dates of service of April 2, 2008, May 7, 2008, June 11, 2008, and August 13, 2008, at \$117.75 for each visit for the compensable injury of \_\_\_\_\_.

Even though all the evidence presented was not discussed, it was considered. The Findings of Fact and Conclusions of Law are based on all of the evidence presented.
