Issues

1. Did the respondent provide sufficient explanation for denial of the disputed services?
2. Did the audited charges exceed \$40,000.00?
3. Did the admission in dispute involve unusually extensive services?
4. Did the admission in dispute involve unusually costly services?
5. Is the requestor entitled to additional reimbursement?

Findings

This dispute relates to inpatient surgical services provided in a hospital setting with reimbursement subject to the provisions of division rule at 28 Texas Administrative Code §134.401, titled *Acute Care Inpatient Hospital Fee Guideline*, effective August 1, 1997, 22 Texas Register 6264. The Third Court of Appeals' November 13, 2008 opinion in *Texas Mutual Insurance Company v. Vista Community Medical Center, LLP*, 275 South Western Reporter Third 538, 550 (Texas Appeals – Austin 2008, petition denied) addressed a challenge to the interpretation of 28 Texas Administrative Code §134.401. The Court concluded that "to be eligible for reimbursement under the Stop-Loss Exception, a hospital must demonstrate that the total audited charges exceed \$40,000 and that an admission involved unusually costly and unusually extensive services." Both the requestor and respondent in this dispute were given an opportunity to supplement the original MDR

submissions after the 3rd Court of Appeals Decision. Only the respondent submitted a supplemental position as noted above. Documentation filed by the requestor and respondent to date is considered in determining whether the admission in dispute is eligible for reimbursement under the stop-loss method of payment. Consistent with the Third Court of Appeals' November 13, 2008 opinion, the division will address whether the total audited charges *in this case* exceed \$40,000; whether the admission and disputed services *in this case* are unusually extensive; and whether the admission and disputed services *in this case* are unusually costly. 28 Texas Administrative Code §134.401(c)(2)(C) states, in pertinent part, that "Independent reimbursement is allowed on a case-by-case basis if the particular case exceeds the stop-loss threshold..." In that same opinion, the Third Court of Appeals states that the stop loss exception "...was meant to apply on a case-by-case basis in relatively few cases." 28 Texas Administrative Code §134.401(c)(6) puts forth the requirements to meet the three factors that will be discussed.

1. The requestor in its position statement asserts that, "The Carrier has not made a legal denial of reimbursement under the applicable rules and statutes." 28 Texas Administrative Code §133.304(c), 17 Texas Register 1105, effective February 20, 1992, applicable to dates of service in dispute, states, in pertinent part, that "At the time an insurance carrier makes payment or denies payment on a medical bill, the insurance carrier shall send, in the form and manner prescribed by the Commission, the explanation of benefits to the appropriate parties. The explanation of benefits shall include the correct payment exception codes required by the Commission's instructions, and shall provide sufficient explanation to allow the sender to understand the reason(s) for the insurance carrier's action(s). A generic statement that simply states a conclusion such as 'not sufficiently documented' or other similar phrases with no further description of the reason for the reduction or denial of payment does not satisfy the requirements of this section." Review of the submitted documentation finds that the explanation of benefits were issued using the division-approved form TWCC 62 and noted payment exception codes "F and C."

These payment exception codes and descriptions support an explanation for the reduction of reimbursement based on former 28 Texas Administrative Code §134.401. These reasons support a reduction of the reimbursement amount from the requested stop-loss exception payment reimbursement methodology to the standard per diem methodology amount and provided sufficient explanation to allow the provider to understand the reason(s) for the insurance carrier's action(s). The division therefore concludes that the insurance carrier has substantially met the requirements of 28 Texas Administrative Code §133.304(c).

2. 28 Texas Administrative Code §134.401(c)(6)(A)(i) states, "to be eligible for stop-loss payment the total audited charges for a hospital admission must exceed \$40,000, the minimum stop-loss threshold." Furthermore, 28 Texas Administrative Code §134.401(c)(6)(A)(v) states that "Audited charges are those charges which remain after a bill review by the insurance carrier has been performed." Review of the explanation of benefits issued by the respondent finds that the carrier did not deduct any charges in accordance with §134.401(c)(6)(A)(v); therefore the audited charges equal \$46,865.20. The division concludes that the total audited charges exceed \$40,000.00.
3. The requestor in its original position statement asserts that "if the total audited charges *for the entire admission* are at or above 40,000, the Carrier shall reimburse using the 'Stop-Loss Reimbursement Factor' (SLRF). The SLRF of 75% is applied to the 'entire admission.'" As noted above, the Third Court of Appeals' November 13, 2008 opinion in *Texas Mutual Insurance Company v. Vista Community Medical Center, LLP*, 275 South Western Reporter Third 538, 550 (Texas Appeals – Austin 2008, petition denied) rendered judgment to the contrary. The requestor's position fails to meet the requirements of §134.401(c)(2)(C) because the particulars of the services in dispute are not discussed, nor does the requestor demonstrate how the services in dispute were unusually extensive in relation to similar surgery services or admissions. For the reasons stated, the division finds that the requestor failed to demonstrate that the services in dispute were unusually extensive.
4. In regards to whether the services were unusually costly, the Third Court of Appeals' November 13, 2008 opinion concluded that in order to be eligible for reimbursement under the stop-loss exception, a hospital must demonstrate that an admission involved unusually costly services. 28 Texas Administrative Code §134.401(c)(6) states that "Stop-loss is an independent reimbursement methodology established to ensure fair and reasonable compensation to the hospital for unusually costly services rendered during treatment to

an injured worker.” The requestor asserts that because the **billed charges** exceed the stop-loss threshold, the admission in this case is unusually costly. The division notes that audited charges are addressed as a separate and distinct factor described in 28 Texas Administrative Code §134.401(c)(6)(A)(i). Billed charges for services do not represent the cost of providing those services, and no such relation has been established in the instant case. The requestor fails to demonstrate that the **costs** associated with the services in dispute are unusual when compared to similar spinal surgery services or admissions. For that reason, the division rejects the requestor’s position that the admission is unusually costly based on the mere fact that the billed or audited charges “substantially” exceed \$40,000.

5. 28 Texas Administrative Code §134.401(b)(2)(A) titled General Information states, in pertinent part, that “The basic reimbursement for acute care hospital inpatient services rendered shall be the lesser of:

- (i) a rate for workers’ compensation cases pre-negotiated between the carrier and the hospital;
- (ii) the hospital’s usual and customary charges; and
- (iii) reimbursement as set out in section (c) of this section for that admission

In regards to a pre-negotiated rate, the services in dispute were reduced in part with the explanation “C-The charges have been repriced in accordance to a contract owned or accessed by a First Health Company.” No documentation was provided to support that a reimbursement rate was negotiated between the workers’ compensation insurance carrier Insurance Company of the State of PA and Vista Medical Center Hospital prior to the services being rendered; therefore 28 Texas Administrative Code §134.401(b)(2)(A)(i) does not apply.

In regards to the hospital’s usual and customary charges in this case, review of the medical bill finds that the health care provider’s usual and customary charges equal \$46,865.20.

In regards to reimbursement set out in (c), the division determined that the requestor failed to support that the services in dispute are eligible for the stop-loss method of reimbursement; therefore 28 Texas Administrative Code §134.401(c)(1), titled Standard Per Diem Amount, and §134.401(c)(4), titled Additional Reimbursements, apply. The division notes that additional reimbursements under §134.401(c)(4) apply only to bills that do not reach the stop-loss threshold described in subsection (c)(6) of this section.

- Division rule at 28 Texas Administrative Code §134.401(c)(3)(ii) states, in pertinent part, that “The applicable Workers’ Compensation Standard Per Diem Amount (SPDA) is multiplied by the length of stay (LOS) for admission...” Review of the submitted documentation finds that the length of stay for this admission was one (1) surgical day; therefore, the standard per diem amounts of \$1,118.00 multiplied by the 1 day result in a total allowable amount of \$1,118.00.
- 28 Texas Administrative Code §134.401(c)(4)(B) allows that “When medically necessary the following services indicated by revenue codes shall be reimbursed at a fair and reasonable rate: (iv) Blood (revenue codes 380-399).” A review of the submitted hospital bill finds that the requestor billed \$299.00 for revenue code 391-Blood/Storage Processing. 28 Texas Administrative Code §133.307(g)(3)(D), requires the requestor to provide “documentation that discusses, demonstrates, and justifies that the payment amount being sought is a fair and reasonable rate of reimbursement.” Review of the submitted documentation finds that the requestor does not demonstrate or justify that the amount sought for revenue code 391 would be a fair and reasonable rate of reimbursement. Additional payment cannot be recommended.

The division concludes that the total allowable for the disputed inpatient hospitalization is \$1,118.00. The respondent issued payment in the amount of \$1,018.00; therefore, additional reimbursement of \$100.00 is recommended.

Conclusion

The submitted documentation does not support the reimbursement amount sought by the requestor. The requestor in this case demonstrated that the audited charges exceed \$40,000, but failed to demonstrate that the disputed inpatient hospital admission involved unusually extensive services, and failed to demonstrate that the services in dispute were unusually costly. Consequently, 28 Texas Administrative Code §134.401(c)(1) titled *Standard Per Diem Amount*, and §134.401(c)(4) titled *Additional Reimbursements* are applied and result in additional reimbursement.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Sections 413.031 and 413.019 (if applicable), the division has determined that the requestor is entitled to additional reimbursement for the services involved in this dispute. The division hereby ORDERS the respondent to remit to the requestor the amount of \$100.00 plus applicable accrued interest per 28 Texas Administrative Code §134.803, due within 30 days of receipt of this Order
