FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

- 1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
- 2. 28 Texas Administrative Code §134.403, titled *Hospital Facility Fee Guideline Outpatient*, sets out the reimbursement guidelines for facility services provided in an outpatient acute care hospital.
- 3. The services in dispute were reduced/denied by the respondent with the following reason codes:
 - W1 Workers Compensation State Fee Schedule Adjustment
 - 729-001 THIS SERVICE IS NOT REIMBURSABLE INA HOSPITAL OUTPATIENT SETTING
 - 901- RECONSIDERATION NO ADDITIONAL PAYMENT. ORIGINAL PAYMENT DECISION IS BEING MAINTAINED.

Issues

- 1. What is the applicable rule for determining reimbursement for the disputed services?
- 2. What is the recommended payment amount for the services in dispute?
- 3. Is the requestor entitled to reimbursement?

Findings

- 1. This dispute relates to facility services performed in an outpatient hospital setting with reimbursement subject to the provisions of 28 Texas Administrative Code §134.403, which requires that the reimbursement calculation used for establishing the maximum allowable reimbursement (MAR) shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register with the application of minimal modifications as set forth in the rule. Per §134.403(f)(1), the sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 200 percent, unless a facility or surgical implant provider requests separate reimbursement of implantables. Review of the submitted documentation finds that separate reimbursement for implantables is not applicable.
- 2. Under the Medicare Outpatient Prospective Payment System (OPPS), each billed service is assigned an Ambulatory Payment Classification (APC) based on the procedure code used, the supporting documentation and the other services that appear on the bill. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Payment for ancillary and supportive items and services, including services that are billed without procedure codes, is packaged into payment for the primary service. A full list of APCs is published quarterly in the OPPS final rules which are publicly available through the Centers for Medicare and Medicaid Services (CMS) website. Reimbursement for the disputed services is calculated as follows:
 - Procedure code 96365, date of service May 1, 2010, has a status indicator of S, which denotes a significant procedure, not subject to multiple-procedure discounting, paid under OPPS with separate APC payment. These services are classified under APC 0439, which, per OPPS Addendum A, has a payment rate of \$126.78. This amount multiplied by 60% yields an unadjusted labor-related amount of \$76.07. This amount multiplied by the annual wage index for this facility of 0.8883 yields an adjusted labor-related amount of \$67.57. The non-labor related portion is 40% of the APC rate or \$50.71. The sum of the labor and non-labor related amounts is \$118.28. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,175. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$118.28. This amount multiplied by 200% yields a MAR of \$236.56.
