MEDICAL FEE DISPUTE RESOLUTION FINDINGS AND DECISION

GENERAL INFORMATION

Requestor Name

Dallas County Hospital

Respondent Name

National Fire Insurance Co of Hartford

MFDR Tracking Number

M4-13-1332-01

Carrier's Austin Representative

Box Number 47

MFDR Date Received

January 28, 2013

REQUESTOR'S POSITION SUMMARY

Requestor's Position Summary: "Per Medicare DRG Inpatient reprice (www.cms.gov/pcpricer/03_inpatient-cms website ... for DRG 464 \$15187.13 multiplied by 143% - \$21717.60 for the payment received for \$17413.45 was short by \$4304.15."

Amount in Dispute: \$4304.15

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: "The Bill reviews performed vary from the amount shown on the CMS website Prospective Payment System (PPS) Inpatient PCPricer includes what is commonly referred to as "pass throughs". The pass through amount is an estimate of Medicare bad debts, organ acquisition costs, and graduate medical education expenses for those hospital that want to project the impact of these expenses on their total income for the year. The pass through costs in the PCPricer system represent Medicare patient costs, not costs associated with a workers' compensation claim. In addition, because we cannot control or confirm that the IPPS impact file that Medicare published is accurately coded within the IPPS PC Pricer software, the PC pricer shouldn't be used for acute IPPS as it related to workers' compensation claim. "

Response Submitted by: Brian J. Judis, 700 N. Pearl, Suite 425, Dallas, TX 75201

SUMMARY OF FINDINGS

Dates of Service	Disputed Services	Amount In Dispute	Amount Due
September 4 – 10, 2012	Inpatient Hospital Surgical Services	\$4304.15	\$4304.15

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

- 28 Texas Administrative Code §133.307 sets out the procedures for resolving a medical fee dispute.
- 28 Texas Administrative Code §134.404 sets out the guidelines for reimbursement of hospital facility fees for inpatient services.
- The services in dispute were reduced/denied by the respondent with the following reason codes:
 - W1 – Workers Compensation State Fee Schedule Adjustment

- Z257 – This Bill has been Re-Evaluated. The Bill And Submitted Documentation Do Not Support Additional Allowance

Issues

1. Should the pass through amounts be considered?
2. Were the disputed services subject to a specific fee schedule set in a contract between the parties that complies with the requirements of Labor Code §413.011?
3. Which reimbursement calculation applies to the services in dispute?
4. What is the maximum allowable reimbursement for the services in dispute?
5. Is the requestor entitled to additional reimbursement for the disputed services?

Findings

1. 28 Texas Administrative Code §134.404(f) provides, in pertinent part, that “The reimbursement calculation used for establishing the MAR shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Inpatient Prospective Payment System (IPPS) reimbursement formula and factors as published annually in the Federal Register” with minimal modification as specified in the rule. Contrary to the respondent’s position, the Division notes that the Rule Adoption Order does not specify that pass-through reimbursements are excluded from payment rule, only that the Labor Code does not provide for pass-through reimbursements to cover bad debt or direct medical education. The Division clarified elsewhere in the preamble that “Bad debt and direct medical education are paid outside the base methodology and are a part of the cost report reconciliation process, which the Division has not adopted” (33 Texas Register 419). In each instance the Division is referring to a process, cost report reconciliation that was not adopted and accordingly not mentioned in the text of the rule. The respondent has not supported the argument that pass-through amounts are to be excluded from CMS’s base methodology, or from the calculation of the Medicare facility specific amount. Therefore, the services in dispute will be reviewed per applicable rules and guidelines.

2. 28 Texas Administrative Code §134.404(e) states that: “Except as provided in subsection (h) of this section, regardless of billed amount, reimbursement shall be:
 - (1) the amount for the service that is included in a specific fee schedule set in a contract that complies with the requirements of Labor Code §413.011; or
 - (2) if no contracted fee schedule exists that complies with Labor Code §413.011, the maximum allowable reimbursement (MAR) amount under subsection (f) of this section, including any applicable outlier payment amounts and reimbursement for implantables.”

No documentation was found to support the existence of a contractual agreement between the parties to this dispute; therefore the MAR can be established under §134.404(f).

3. §134.404(f) states that “The reimbursement calculation used for establishing the MAR shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Inpatient Prospective Payment System (IPPS) reimbursement formula and factors as published annually in the Federal Register. The following minimal modifications shall be applied.
 - (1) The sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by:
 - (A) 143 percent; unless
 - (B) a facility or surgical implant provider requests separate reimbursement in accordance with subsection (g) of this section, in which case the facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 108 percent.”

No documentation was found to support that the facility requested separate reimbursement for implantables; for that reason the MAR is calculated according to §134.404(f)(1)(A).

4. §134.404(f)(1)(A) establishes MAR by multiplying the most recently adopted and effective Medicare Inpatient Prospective Payment System (IPPS) reimbursement formula and factors (including outliers) by 143%. Information regarding the calculation of Medicare IPPS payment rates may be found at <http://www.cms.gov>. Documentation found supports that the DRG assigned to the services in dispute is 494, and that the services were provided at Parkland Health and Hospital System. Consideration of the DRG, location of the services, and bill-specific information results in a total Medicare facility specific allowable amount of \$15,285.51. This amount multiplied by 143% results in a MAR of \$21,858.28.
5. The division concludes that the total allowable reimbursement for the services in dispute is \$21,858.28. The respondent issued payment in the amount of \$17,413.45. The requestor is seeking additional reimbursement

in the amount of \$4,304.15. This amount is recommended.

Conclusion

For the reasons stated above, the division finds that the requestor has established that additional reimbursement is due.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Sections 413.031 and 413.019 (if applicable), the Division has determined that the requestor is entitled to additional reimbursement for the services involved in this dispute. The Division hereby ORDERS the respondent to remit to the requestor the amount of \$4,304.15 plus applicable accrued interest per 28 Texas Administrative Code §134.130, due within 30 days of receipt of this Order.
