BACKGROUND

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. Texas Insurance Code Chapter 1305 applicable to Health Care Certified Networks.

FINDINGS AND DECISION

Issue

1. Did the requestor receive a referral approval from the certified network to treat the injured employee?
2. Is this dispute eligible for medical fee dispute resolution pursuant to 28 Texas Administrative Code §133.307?

Findings

The requestor filed this medical fee dispute to the Division asking for resolution pursuant to 28 Texas Administrative Code (TAC) §133.307 titled *MDR of Fee Disputes*. The authority of the Division of Workers' Compensation is to apply Texas Labor Code statutes and rules, including 28 TAC §133.307, is limited to the conditions outlined in the applicable portions of the Texas Insurance Code (TIC), Chapter 1305. In particular, TIC §1305.153 (c) provides that "Out-of-network providers who provide care as described by Section 1305.006 shall be reimbursed as provided by the Texas Workers' Compensation Act and applicable rules of the commissioner of workers' compensation." The requestor therefore has the burden to prove that the condition(s) outlined in the Texas Insurance Code §1305.006 were met in order to be eligible for dispute resolution. The following are the Division's findings.

1. Texas Insurance Code Section 1305.006 requires, in pertinent part, that "(3) health care provided by an out-of-network provider pursuant to a referral from the injured employee's treating doctor that has been approved by the network pursuant to Section 1305.103."

Texas Insurance Code Section 1305.103 requires that "(e) A treating doctor shall provide health care to the employee for the employee's compensable injury and shall make referrals to other network providers, or request referrals to out-of-network providers if medically necessary services are not available within the network. Referrals to out-of-network providers must be approved by the network. The network shall approve a referral to an out-of-network provider not later than the seventh day after the date on which the referral is requested, or sooner if circumstances and the condition of the employee require expedited approval. If the network denies the referral request, the employee may appeal the decision through the network's complaint process under Subchapter I."

The requestor has the burden to prove that it obtained the appropriate network approved referral for the out-of-network healthcare it provided. Review of the submitted documentation finds that the requestor submitted insufficient documentation to support that a referral was obtained from the treating doctor and approved by the network to treat the injured employee. The Division concludes that the requestor thereby has failed to meet the requirements of Texas Insurance Code Section 1305.103.

2. The Division finds that the requestor failed to prove in this case that that the requirements of Texas Insurance Code Section 1305.006(3) were met. Consequently, the services in dispute are not eligible for medical fee dispute resolution pursuant to 28 Texas Administrative Code §133.307.

DECISION

Based upon the documentation submitted by the parties, the Division has determined that this dispute is not eligible for resolution pursuant to 28 Texas Administrative Code §133.307.
