FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.403, titled *Hospital Facility Fee Guideline – Outpatient*, sets out the reimbursement guidelines for facility services provided in an outpatient acute care hospital.
3. 28 Texas Administrative Code §134.203, titled *Medical Fee Guideline for Professional Services*, sets out the reimbursement guidelines for professional medical services.
4. The services in dispute were reduced/denied by the respondent with the following reason codes:
 - 356 – THIS OUTPATIENT ALLOWANCE WAS BASED ON THE MEDICARE'S METHODOLOGY (PART B) PLUS THE TEXAS MARKUP.
 - 618 – THE VALUE OF THIS PROCEDURE IS PACKAGED INTO THE PAYMENT OF OTHER SERVICES PERFORMED ON THE SAME DATE OF SERVICE.

- W1 – WORKERS' COMPENSATION JURISDICTIONAL FEE SCHEDULE ADJUSTMENT
- 193 – ORIGINAL PAYMENT DECISION IS BEING MAINTAINED.

Issues

1. What is the applicable rule for determining reimbursement for the disputed services?
2. What is the recommended payment amount for the services in dispute?
3. Is the requestor entitled to reimbursement?

Findings

1. This dispute relates to facility services performed in an outpatient hospital setting with reimbursement subject to the provisions of 28 Texas Administrative Code §134.403, which requires that the reimbursement calculation used for establishing the maximum allowable reimbursement (MAR) shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register with the application of minimal modifications as set forth in the rule. Per §134.403(f)(1), the sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 200 percent, unless a facility or surgical implant provider requests separate reimbursement of implantables. Review of the submitted documentation finds that separate reimbursement for implantables is not applicable.
2. Under the Medicare Outpatient Prospective Payment System (OPPS), each billed service is assigned an Ambulatory Payment Classification (APC) based on the procedure code used, the supporting documentation and the other services that appear on the bill. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Payment for ancillary and supportive items and services, including services that are billed without procedure codes, is packaged into payment for the primary service. A full list of APCs is published quarterly in the OPPS final rules which are publicly available through the Centers for Medicare and Medicaid Services (CMS) website. Reimbursement for the disputed services is calculated as follows:
 - Procedure code 36415 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is \$3.00. 125% of this amount is \$3.75
 - Procedure code 80053 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is \$14.97. 125% of this amount is \$18.71
 - Procedure code 86850 has a status indicator of X, which denotes ancillary services paid under OPPS with separate APC payment. These services are classified under APC 0345, which, per OPPS Addendum A, has a payment rate of \$14.95. This amount multiplied by 60% yields an unadjusted labor-related amount of \$8.97. This amount multiplied by the annual wage index for this facility of 0.8559 yields an adjusted labor-related amount of \$7.68. The non-labor related portion is 40% of the APC rate or \$5.98. The sum of the labor and non-labor related amounts is \$13.66. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$13.66. This amount multiplied by 200% yields a MAR of \$27.32.
 - Procedure code 86900 has a status indicator of X, which denotes ancillary services paid under OPPS with separate APC payment. These services are classified under APC 0409, which, per OPPS Addendum A, has a payment rate of \$7.71. This amount multiplied by 60% yields an unadjusted labor-related amount of \$4.63. This amount multiplied by the annual wage index for this facility of 0.8559 yields an adjusted labor-related amount of \$3.96. The non-labor related portion is 40% of the APC rate or \$3.08. The sum of the labor and non-labor related amounts is \$7.04. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$7.04. This amount multiplied by 200% yields a MAR of \$14.08.

- Procedure code 71010 has a status indicator of Q3, which denotes conditionally packaged codes that may be paid through a composite APC if OPPS criteria are met; however, review of the submitted information finds that the criteria for composite payment have not been met. Therefore, this line may be paid separately. These services are classified under APC 0260, which, per OPPS Addendum A, has a payment rate of \$44.84. This amount multiplied by 60% yields an unadjusted labor-related amount of \$26.90. This amount multiplied by the annual wage index for this facility of 0.8559 yields an adjusted labor-related amount of \$23.02. The non-labor related portion is 40% of the APC rate or \$17.94. - Procedure code 70450 has a status indicator of Q3, which denotes conditionally packaged codes that may be paid through a composite APC. If OPPS criteria are met, this service is assigned to composite APC 8006. This service meets the criteria for composite payment. A service that is assigned to a composite APC is a major component of a single episode of care. The hospital receives one payment through a composite APC for multiple major separately identifiable services. Payment for any combination of designated procedures performed on the same date is packaged into a single payment. If a claim includes a composite payment that pays for more than one otherwise separately paid service, the charges for all services included in the composite are summed up to one line. To determine outlier payments, a single cost for the composite APC is estimated from the summarized charges. Total packaged cost is allocated to the composite line-item in proportion to other separately paid services on the claim. The payment for composite services is calculated below.
