BACKGROUND

1. 28 Texas Administrative Code §133.307, 37 TexReg 3833, applicable to medical fee disputes filed on or after June 1, 2012, sets out the procedures for resolving medical fee disputes.
2. Texas Insurance Code Chapter 1305 applicable to Health Care Certified Networks

FINDINGS AND DECISION

Issue

1. Did the requestor meet the conditions outlined in the applicable portions of the Texas Insurance Code (TIC), Chapter 1305 to file for medical fee dispute resolution?
2. Is this dispute eligible for medical fee dispute resolution pursuant to 28 Texas Administrative Code §133.307?

Findings

Select Anesthesia Services PA filed this medical fee dispute to the Division asking for resolution pursuant to 28 Texas Administrative Code (TAC) §133.307 titled *MDR of Fee Disputes*. The authority of the Division of Workers' Compensation to apply Texas Labor Code statues and rules, including 28 TAC §133.307, is limited to the conditions outlined in the applicable portions of the Texas Insurance Code (TIC), Chapter 1305. In particular, TIC §1305.153 (c) provides that "Out-of-network providers who provide care as described by Section 1305.006 shall be reimbursed as provided by the Texas Workers' Compensation Act and applicable rules of the commissioner of workers' compensation." Select Anesthesia Services PA therefore has the burden to prove that the condition(s) outlined in Texas Insurance Code §1305.006 were met in order to be eligible for dispute resolution of the facility services provided. The following are the Division's findings.

1. Texas Insurance Code Section 1305.006 requires, in pertinent part, that "(3) health care provided by an out-of-network provider pursuant to a referral from the injured employee's treating doctor that has been approved by the network pursuant to Section 1305.103."

   Texas Insurance Code Section 1305.103 requires, in pertinent part, that "(e) A treating doctor shall provide health care to the employee for the employee's compensable injury and shall make referrals to other network providers, or request referrals to out-of-network providers if medically necessary services are not available within the network. Referrals to out-of-network providers must be approved by the network..."

   The requestor, Select Anesthesia Services PA, has the burden to prove that it obtained the appropriate approval from Liberty Mutual HCN for the out-of-network care it provided. The requestor, Select Anesthesia Services PA, in its position summary dated August 15, 2013 states "the above reference claim has been denied due to 'PROVIDER IS NOT WITHIN THE LIBERTY HEALTHCARE FOR THIS CUSTOMER... I questioned this denial since we did have an authorization on file for this procedure. Per Tyler, claim is still denied because the authorization umber is for medical necessity, not payment or network status." The Division finds that although the requestor indicates that preauthorization was obtained for the disputed services, the requestor failed to submit documentation to support that a referral was obtained from the treating doctor approved by the network for out-of-network providers to treat an in-network injured employee. The Division concludes that Select Anesthesia Services PA did not receive an approved referral from the Liberty Mutual HCN to treat the injured employee; thereby failing to meet the requirements of Texas Insurance Code Section 1305.103.

2. The requestor Select Anesthesia Services PA failed to prove in this case that that the requirements of Texas Insurance Code Section 1305.006(3) were met. Consequently, the services in dispute are not eligible for medical fee dispute resolution pursuant to 28 Texas Administrative Code §133.307.

DECISION

Based upon the documentation submitted by the parties, the Division has determined that this dispute is not eligible for resolution pursuant to 28 Texas Administrative Code §133.307.
