FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Worker s' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes
2. 28 Texas Administrative Code §134.203 sets out the reimbursement guidelines for clinical laboratory services.
3. The services in dispute were reduced/denied by the respondent with the following reason codes:

   Explanation of benefits

   - CAC-W1- Workers compensation state fee schedule adjustment.
   - CAC-16 Claim/service lacks information which is needed for adjudication. At least one remark code must be provided (may be comprised of either the remittance advice remark code or NCPDP reject reason code)

- 225 – The submitted documentation does not support the service being billed. We will re-evaluate this upon receipt of clarifying information.
- 714- Accurate coding and billing is essential for reimbursement. CPT/HCPS billed incorrectly. Corrections must be submitted W/I 95 days from DOS.
- 75 8 – ODG documentation requirements for urine drug testing have not been met.
- CAC-193 – Original payment decision is being maintained. Upon review, it was determined that this claim was processed properly.
- 724- No additional payment after reconsideration of services. For information call 1-800-937-6824.

Issues

1. Did the requestor appropriately bill the service rendered?
2. Were Medicare policies met?

Findings

1. The workers' compensation carrier (carrier) denied services, in part, using claim adjustment code 714- which states that "Accurate coding is essential for reimbursement. CPT/HCPS billed incorrectly. Corrections must be submitted W/I 95 days from DOS." In its written response to this dispute, the carrier furthermore states that "Texas Mutual declined to issue payment of the billing because of incorrect coding because Medicare ceased paying urine drug screens coded with 80101 beginning 7/1/2010." Texas Administrative Code 134.203(b)(1) states, in pertinent part, …"for coding, billing, reporting, and reimbursement of professional medical services, Texas workers' compensation system participants shall apply the following: (1) Medicare payment policies, including its coding; billing;…"

   The medical bill indicates that the requestor billed code 80101. The applicable Medicare policy for billing may be found in the Medicare Learning Network (MLN) Matters change request CR 6852 at http://www.cms.gov. Applicable section in CR 6852 indicates that "New test code G0431 is a direct replacement for CPT code 80101…effective dates of service on or after April 1, 2010, new test code G0431 should be utilized by those clinical laboratories that do not require a CLIA certificate of waiver…"

   Documentation supports that date of service billed is April 18, 2013. As stated per CR6852, dates of service billed after April 1, 2010 should be billed with new test code G0431. The division concludes that the requestor did not appropriately bill the service rendered. The respondent's denial of payment is supported.

2. 28 TAC §134.203(b)(1) states that "For coding, billing, reporting, and reimbursement of professional medical services, Texas workers' compensation system participants shall apply the following: (1) Medicare payment policies, including its coding; billing; correct coding initiative (CCI) edits; modifiers; bonus payments for health professional shortage areas (HPSAs) and physician scarcity areas (PSAs); and other payment policies in effect on the date a service is provided with any additions or exceptions in the rules." §134.203(a)(5) states that "'Medicare payment policies' when used in this section, shall mean reimbursement methodologies, models, values and weights including its coding, billing, and reporting payment policies as set forth in the Centers for Medicare and Medicaid Services (CMS) payment policies specific to Medicare." The services in dispute are clinical laboratory services; therefore, Medicare policies for the clinical laboratory services must be met. The services in dispute are addressed in the CMS Clinical Laboratory Fee Schedule. The requestor billed the following AMA CPT codes/descriptions as follows:
   - CPT code 80101, twelve units qualitative, single drug class method eg, immunoassay, enzyme assay), each drug class

Review of the medical bill finds that current AMA CPT code(s) were not billed. Therefore, the requestor did not meet the requirements set forth by 28 TAC §134.203.

Conclusion

For the reasons stated above, the Division finds that the requestor has not established that additional reimbursement is due. As a result, the amount ordered is $0.00.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to $0.00 reimbursement for the disputed services.
