MFDR Date Received

October 30, 2013

REQUESTOR'S POSITION SUMMARY

Requestor's Position Summary: "Outpatient Hospital Rule 134.03, HCPS's are payable at 200% of the correct fee schedule allowable."

Amount in Dispute: \$1,601.89

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: Written acknowledgement of medical fee dispute received however, no response submitted.

SUMMARY OF FINDINGS

Date(s) of Service	Disputed Services	Amount In Dispute	Amount Due
November 12, 2012	Outpatient Hospital Services	\$1,601.89	\$17.48

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.403, titled *Hospital Facility Fee Guideline – Outpatient*, sets out the reimbursement guidelines for facility services provided in an outpatient acute care hospital.
3. 28 Texas Administrative Code §134.203, titled *Medical Fee Guideline for Professional Services*, sets out the reimbursement guidelines for professional medical services.
4. The services in dispute were reduced/denied by the respondent with the following reason codes:
 - W1 – WORKERS' COMPENSATION JURISDICTIONAL FEE SCHEDULE ADJUSTMENT
 - 618 – THE VALUE OF THIS PROCEDURE IS PACKAGED INTO THE PAYMENT OF OTHER SERVICES PERFORMED ON THE SAME DATE OF SERVICE
 - 59 – PROCESSED BASED ON MULTIPLE OR CONCURRENT PROCEDURE RULES
 - 619 – THE PROCEDURE/SUPPLY WAS NOT SUFFICIENTLY IDENTIFIED AND/OR QUANTIFIED

Issues

1. What is the applicable rule for determining reimbursement for the disputed services?
2. What is the recommended payment amount for the services in dispute?
3. Is the requestor entitled to reimbursement?

Findings

1. This dispute relates to facility services performed in an outpatient hospital setting with reimbursement subject to the provisions of 28 Texas Administrative Code §134.403, which requires that the reimbursement calculation used for establishing the maximum allowable reimbursement (MAR) shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register with the application of minimal modifications as set forth in the rule. Per §134.403(f)(1), the sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 200 percent, unless a facility or surgical implant provider requests separate reimbursement of implantables. Review of the submitted documentation finds that separate reimbursement for implantables is not applicable.
2. Under the Medicare Outpatient Prospective Payment System (OPPS), each billed service is assigned an Ambulatory Payment Classification (APC) based on the procedure code used, the supporting documentation and the other services that appear on the bill. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Payment for ancillary and supportive items and services, including services that are billed without procedure codes, is packaged into payment for the primary service. A full list of APCs is published quarterly in the OPPS final rules which are publicly available through the Centers for Medicare and Medicaid Services (CMS) website. Reimbursement for the disputed services is calculated as follows:
 - Procedure code J7120 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code 88305 has a status indicator of X, which denotes ancillary services paid under OPPS with separate APC payment. These services are classified under APC 0343, which, per OPPS Addendum A, has a payment rate of \$36.84. This amount multiplied by 60% yields an unadjusted labor-related amount of \$22.10. This amount multiplied by the annual wage index for this facility of 0.9554 yields an adjusted labor-related amount of \$21.11. The non-labor related portion is 40% of the APC rate or \$14.74. The sum of the labor and non-labor related amounts is \$35.85. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$35.85. This amount multiplied by 200% yields a MAR of \$71.70.
 - Procedure code 49505 has a status indicator of T, which denotes a significant procedure subject to multiple-procedure discounting. The highest paying status T procedure is paid at 100%; all others are paid at 50%. This procedure is paid at 100%. These services are classified under APC 0154, which, per OPPS Addendum A, has a payment rate of \$2,305.60. This amount multiplied by 60% yields an unadjusted labor-related amount of \$1,383.36. This amount multiplied by the annual wage index for this facility of 0.9554 yields an adjusted labor-related amount of \$1,321.66. The non-labor related portion is 40% of the APC rate or \$922.24. The sum of the labor and non-labor related amounts is \$2,243.90. Per 42 Code of Federal Regulations §419.43(d) and Medicare Claims Processing Manual, CMS Publication 100-04, Chapter 4, §10.7.1, if the total cost for a service exceeds 1.75 times the OPPS payment and also exceeds the annual fixed-dollar threshold of \$2,025, the outlier payment is 50% of the amount by which the cost exceeds 1.75 times the OPPS payment. Per the OPPS Facility-Specific Impacts file, CMS lists the cost-to-charge ratio for this provider as 0.25. This ratio multiplied by the billed charge of \$4,854.00 yields a cost of \$1,213.50. The total cost of all packaged items is allocated proportionately across all separately paid OPPS services based on the percentage of the total APC payment. The APC payment for these services of \$2,243.90 divided by the sum of all APC payments is 98.43%. The sum of all packaged costs is \$1,276.35. The allocated portion of packaged costs is \$1,256.28. This amount added to the service cost yields a total cost of \$2,469.78. The cost of these services exceeds the annual fixed-dollar threshold of \$2,025. The amount by which the cost exceeds 1.75 times the OPPS payment is \$0.00. The total Medicare facility specific reimbursement amount for this line is \$2,243.90. This amount multiplied by 200% yields a MAR of \$4,487.80.
 - Procedure code 55520 is unbundled. This procedure is a component service of procedure code 49505 performed on the same date. Payment for this service is included in the payment for the primary procedure. A modifier (59) was used however; review of the submitted medical documentation finds no documentation to differentiate between the services provided. Separate payment is not recommended.
 - Procedure code J0690 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.

- Procedure code J1100 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J1885 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J2270 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J2405 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
3. The total allowable reimbursement for the services in dispute is \$4,559.50. This amount less the amount previously paid by the insurance carrier of \$4,542.02 leaves an amount due to the requestor of \$17.48. This amount is recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is \$17.48.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Sections 413.031 and 413.019 (if applicable), the Division has determined that the requestor is entitled to additional reimbursement for the services involved in this dispute. The Division hereby ORDERS the respondent to remit to the requestor the amount of \$17.48, plus applicable accrued interest per 28 Texas Administrative Code §134.130, due within 30 days of receipt of this order.
