Each one of them signed the documentation. Michael Lopez, D.C. did not sign the documentation as a participant. Therefore, the documentation does not support the services billed. FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §133.20 sets out the procedures for medical bill submission by the health care provider
3. 28 Texas Administrative Code §134.204 sets out the guidelines for reimbursement workers' compensation

specific services.

4. The services in dispute were reduced/denied by the respondent with the following reason codes:
 - V298 – CV: Documentation on the CMS 1500 or UB04 is not supported by the information in the medical record.
 - B12 – (B12): Services not documented in the patients’ medical records.

Issues

1. Did the requestor document the service in accordance with 28 Texas Administrative Code §134.204?
2. Is the requestor entitled to reimbursement?

Findings

1. The insurance carrier denied the service using denial code V298 – “Documentation on the CMS 1500 or U04 is not supported by the information in the medical record. In accordance with 28 Texas Administrative Code §133.20(e)A medical bill must be submitted: (2) in the name of the licensed health care provider that provided the health care or that provided direct supervision of an unlicensed individual who provided the health care. Review of the CMS-1500 submitted by the requestor finds that the services were billed by Michael Lopez, D.C.; however Dr. Lopez is not one of the healthcare professionals that participated in the conference. There is no documentation to support that Dr. Lopez provided direct supervision at the team conference; therefore, the requestor has not met the requirements of the rule and reimbursement is not recommended.
2. According to 28 Texas Administrative Code §134.204(e) states, “Case Management responsibilities by the Treating Doctor is as follows: (1) Team conferences and telephone calls shall include coordination with an interdisciplinary team. (A) Team members shall not be employees of the treating doctor. (B) Team conferences and telephone calls must be outside of an interdisciplinary program. Documentation shall include the purpose and outcome of conferences and telephone calls, and the name and specialty of each individual attending the team conference or engaged in a phone call. (2) Team conferences and telephone calls should be triggered by a documented change in the condition of the injured employee and performed for the purpose of coordination of medical treatment and/or return to work for the injured employee. (3) Contact with one or more members of the interdisciplinary team more often than once every 30 days shall be limited to the following: (A) coordinating with the employer, employee, or an assigned medical or vocational case manager to determine return to work options; (B) developing or revising a treatment plan, including any treatment plans required by Division rules; (C) altering or clarifying previous instructions. Review of the submitted documentation finds the requestor has not met the requirements of the rule and reimbursement is not recommended.
3. Review of the documentation submitted by the requestor finds the services were not sufficiently documented. Therefore, reimbursement in the amount of \$0.00 is due.

Conclusion

For the reasons stated above, the Division finds that the requestor has not established that reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the disputed services.
