FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.305, sets out the procedures for resolving medical disputes.
2. 28 Texas Insurance Code Chapter 1305 applicable to Health Care Certified Networks.
3. 28 Texas Administrative Code §§10.120 through 10.122 address the submission of a complaint by a health care provider to the Health Care Network.

Issues

1. Are the disputed services rendered by an in-network healthcare provider/facility to an in-network injured employee?
2. Is the requestor eligible for medical fee dispute resolution pursuant to 28 Texas Administrative Code §133.305?
3. What may be the appropriate administrative remedy to address fee matters related to health care certified networks?

Findings

- 1. The requestor billed for surgery services rendered September 11, 2013 to an injured employee enrolled in a certified healthcare network. The insurance carrier’s documentation indicates that both the healthcare provider and the injured employee were enrolled in the Liberty HCN certified healthcare network at the time the services were rendered.

The Division notified the requestor on September 26, 2014 that the disputed services were provided to an injured employee enrolled in a certified network. The notification letter contained information/documentation outlining the dispute path for in-network providers and out-of-network providers. The Medical Fee Dispute Resolution (MFDR) section at the Texas Department of Insurance adjudicates *non-network* medical fee disputes. Documentation found indicates that the health care provider in this case treated an injured employee enrolled in a *certified network*. The requestor did not submit sufficient documentation to the Division to support that the disputed services are eligible for review by Medical Fee Dispute Resolution.

- 2. 28 Texas Administrative Code §133.305 (a) (4) defines a medical fee dispute as “A dispute that involves an amount of payment for **non-network** health care rendered to an injured employee that has been determined to be medically necessary and appropriate for treatment of that injured employee’s compensable injury. The dispute is resolved by the division pursuant to division rules, including §133.307 of this title (relating to MDR of Fee Disputes.” Non-network health care is defined in Section (a) (6) of the same rule as “Health care not delivered or arranged by a certified workers’ compensation health care network as defined in Insurance Code Chapter 1305 and related rules ...”
- 3. The TDI rules at 28 Texas Administrative Code §§10.120 through 10.122 address the submission of a complaint by a health care provider to the Health Care Network. The Division finds that the disputed services rendered by an in-network healthcare facility to an in-network injured employee may be filed to the Texas Department of Insurance’s (TDI) Complaint Resolution Process, if the health care provider or facility is dissatisfied with the outcome of the network complaint process. The complaint process outlined in Texas Insurance Code Subchapter I, §1305.401 - §1305.405 may be the appropriate administrative remedy to address fee matters related to health care certified networks.

Conclusion

The Division would like to emphasize that individual medical fee dispute outcomes rely upon the evidence presented by the requestor and respondent during dispute resolution. This decision is based upon a review of all the evidence presented by the parties in this dispute. Even though all the evidence was not discussed, it was considered. The Division finds that this dispute is not under the jurisdiction of the Division of Workers’ Compensation and is therefore not eligible for medical fee dispute resolution under 28 Texas Administrative Code §133.305.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the disputed services.
