REQUESTOR'S POSITION SUMMARY

Requestor's Position Summary: "Since TDI moved to a 200% of MAR for outpatient services on 3/1/08 for hospital claims we have reviewed the Medicare allowance and decided the insurance reimbursement does not meet this criteria."

Amount in Dispute: \$2,857.05

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: "Please accept this as our response to this request for medical dispute resolution. We do not feel any additional is due. It appears that the provider is only looking at the allowance on the 29875 line. Our total for the bill is correct, but the system prices the line in weighted distribution."

Response Submitted by: Broadspire, 8827 W. Sam Houston Parkway N, Suite 110, Houston, TX 77040

SUMMARY OF FINDINGS

Date(s) of Service	Disputed Services	Amount In Dispute	Amount Due
March 11 and 14, 2013	Outpatient Hospital Services	\$2,857.05	\$0.00

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.403, titled *Hospital Facility Fee Guideline – Outpatient*, sets out the reimbursement guidelines for facility services provided in an outpatient acute care hospital.
3. 28 Texas Administrative Code §134.203, titled *Medical Fee Guideline for Professional Services*, sets out the reimbursement guidelines for professional medical services.
4. The services in dispute were reduced/denied by the respondent with the following reason codes:
 - W1 – Workers Compensation jurisdictional fee schedule adjustment.

- 193 – Original payment decision is being maintained.
- 900 – BASED ON FURTHER REVIEW, NO ADDITIONAL ALLOWANCE IS WARRANTED.

Issues

1. What is the applicable rule for determining reimbursement for the disputed services?
2. What is the recommended payment amount for the services in dispute?
3. Is the requestor entitled to reimbursement?

Findings

1. This dispute relates to facility services performed in an outpatient hospital setting with reimbursement subject to the provisions of 28 Texas Administrative Code §134.403, which requires that the reimbursement calculation used for establishing the maximum allowable reimbursement (MAR) shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register with the application of minimal modifications as set forth in the rule. Per §134.403(f)(1), the sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 200 percent, unless a facility or surgical implant provider requests separate reimbursement of implantables. Review of the submitted documentation finds that separate reimbursement for implantables is not applicable.
2. Under the Medicare Outpatient Prospective Payment System (OPPS), each billed service is assigned an Ambulatory Payment Classification (APC) based on the procedure code used, the supporting documentation and the other services that appear on the bill. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Payment for ancillary and supportive items and services, including services that are billed without procedure codes, is packaged into payment for the primary service. A full list of APCs is published quarterly in the OPPS final rules which are publicly available through the Centers for Medicare and Medicaid Services (CMS) website. Reimbursement for the disputed services is calculated as follows:
 - Procedure code J1720 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code 36415, date of service March 11, 2013, has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is \$3.00. 125% of this amount is \$3.75
 - Procedure code 80053, date of service March 11, 2013, has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is \$14.53. 125% of this amount is \$18.16
 - Procedure code 88304 has a status indicator of X, which denotes ancillary services paid under OPPS with separate APC payment. These services are classified under APC 0433, which, per OPPS Addendum A, has a payment rate of \$23.43. This amount multiplied by 60% yields an unadjusted labor-related amount of \$14.06. This amount multiplied by the annual wage index for this facility of 0.9554 yields an adjusted labor-related amount of \$13.43. The non-labor related portion is 40% of the APC rate or \$9.37. The sum of the labor and non-labor related amounts is \$22.80. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$22.80. This amount multiplied by 200% yields a MAR of \$45.60.
 - Procedure code 29881 has a status indicator of T, which denotes a significant procedure subject to multiple-procedure discounting. The highest paying status T procedure is paid at 100%; all others are paid at 50%. This procedure is paid at 100%. These services are classified under APC 0041, which, per OPPS Addendum A, has a payment rate of \$2,111.62. This amount multiplied by 60% yields an unadjusted labor-related amount of \$1,266.97. This amount multiplied by the annual wage index for this facility of 0.9554 yields an adjusted labor-related amount of \$1,210.46. The non-labor related portion is 40% of the APC rate or \$844.65. The sum of the labor and non-labor related amounts is \$2,055.11. Per Medicare Claims Processing Manual, CMS Publication 100-04, Chapter 4, §10.7.1, if a claim has more than one surgical

service line with a status indicator of S or T and any of those lines has a charge of less than \$1.01, then the charges for all S and T lines are summed and the charges are divided across those lines in proportion to their APC payment rate. The new charge amount is used in place of the submitted charge amount in the line-item outlier calculation. This claim has a status indicator S or T line item with a billed charge less than \$1.01; therefore, all S and T line charges are reallocated accordingly. The APC payment for this service of \$2,055.11 divided by the sum of all S and T APC payments of \$3,082.67 gives an APC payment ratio for this line of 0.666666, multiplied by the sum of all S and T line charges of \$4,728.25, yields a new charge amount of \$3,152.16 for the purpose of outlier calculation. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$2,055.11. This amount multiplied by 200% yields a MAR of \$4,110.22.

- Per Medicare policy, procedure code 29875, is usually a component of a more complex service and is not identified separately. Limited synovectomy is integral to procedure code 29881 and may not be reported separately. Payment for this service is included in the payment for the primary procedure. The requestor included -59 modifier. Review of the submitted documentation does not support the disputed service was a separate procedure. Separate payment is not recommended.
 - Procedure code 97001 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Payment for this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(c). Per Medicare policy, when more than one unit of designated therapy services is performed on the same day, full payment is made for the first unit of the procedure with the highest practice expense. Payment for each subsequent unit is reduced by 25% of the practice expense. This procedure has the highest practice expense for this date. The rate listed for this code in the Multiple Procedure Payment Reduction Rate File for 2013 is \$73.88. This amount divided by the Medicare conversion factor of 34.023 and multiplied by the Division conversion factor of 55.3 yields a MAR of \$120.08
 - Procedure code J1100 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J1885 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J2250 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J2405 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J3010 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
3. The total allowable reimbursement for the services in dispute is \$4,297.81. This amount less the amount previously paid by the insurance carrier of \$6,354.62 leaves an amount due to the requestor of \$0.00. No additional reimbursement can be recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the disputed services.
