MEDICAL FEE DISPUTE RESOLUTION FINDINGS AND DECISION

GENERAL INFORMATION

Requestor Name
Providence Health Center

Respondent Name
Service Lloyds Insurance Co

MFDR Tracking Number
M4-14-1905-01

Carrier's Austin Representative
Box Number 01

MFDR Date Received
February 25, 2014

REQUESTOR'S POSITION SUMMARY

Requestor's Position Summary: "Medicare would have allowed this facility $801.70 for the MAR at 200%. Based on their payment of $536.02, a supplemental payment of $265.68 is due."

Amount in Dispute: $265.68

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: "…In these situations a required modifier inclusion and documentation to support the necessity of the modifier application are used to determine allowance appropriateness. To date, both elements have not been present on billing submission to support separate allowance. CorVel respectfully submits that both the original review and subsequent request for reconsideration were processed appropriately in regard to the corresponding bill submission."

Response Submitted by: Service Lloyds Insurance Company

SUMMARY OF FINDINGS

Date(s) of Service	Disputed Services	Amount In Dispute	Amount Due
January 11, 2013	Outpatient Hospital Services	$265.68	$0.00

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.403, titled *Hospital Facility Fee Guideline – Outpatient*, sets out the reimbursement guidelines for facility services provided in an outpatient acute care hospital.
3. 28 Texas Administrative Code §134.203, titled *Medical Fee Guideline for Professional Services*, sets out the reimbursement guidelines for professional medical services.
4. The services in dispute were reduced/denied by the respondent with the following reason codes:
   - B15 – Procedure/Service is not paid separately
   - 97 – Charge Included in another Charge or Service
   - R79 – CCI Standards of Medical/Surgical Practice

- W1 – Workers' Compensation State Fee Schedule Adj

Issues

1. What is the applicable rule for determining reimbursement for the disputed services?
2. What is the recommended payment amount for the services in dispute?
3. Is the requestor entitled to reimbursement?

Findings

1. This dispute relates to facility services performed in an outpatient hospital setting with reimbursement subject to the provisions of 28 Texas Administrative Code §134.403, which requires that the reimbursement calculation used for establishing the maximum allowable reimbursement (MAR) shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register with the application of minimal modifications as set forth in the rule. Per §134.403(f)(1), the sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 200 percent, unless a facility or surgical implant provider requests separate reimbursement of implantables. Review of the submitted documentation finds that separate reimbursement for implantables is not applicable.
2. Under the Medicare Outpatient Prospective Payment System (OPPS), each billed service is assigned an Ambulatory Payment Classification (APC) based on the procedure code used, the supporting documentation and the other services that appear on the bill. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Payment for ancillary and supportive items and services, including services that are billed without procedure codes, is packaged into payment for the primary service. A full list of APCs is published quarterly in the OPPS final rules which are publicly available through the Centers for Medicare and Medicaid Services (CMS) website. Reimbursement for the disputed services is calculated as follows:
   - Procedure code 36415 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is $3.00. 125% of this amount is $3.75
   - Procedure code 80053 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is $14.53. 125% of this amount is $18.16
   - Procedure code 82550 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is $8.95. 125% of this amount is $11.19
   - Procedure code 85025 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is $10.69. 125% of this amount is $13.36

     Chapter 11, NCCI edits, Section B (4) states in pertinent part, "If the sole purpose of fluid administration (e.g., saline, D5W, etc.) is to maintain patency of an access device, the infusion is neither diagnostic nor therapeutic and should be reported separately. Similarly, the fluid utilized to administer drug(s) /substance is incidental hydration and should be reported separately." Procedure code 96365 is separately payable when a modifier is used and supported by documentation. Review of submitted information finds neither a

modifier or documentation to support the disputed services is a separate and distinct procedure. No payment can be recommended.

- Procedure code 96375 has a status indicator of S, which denotes a significant procedure, not subject to multiple-procedure discounting, paid under OPPS with separate APC payment. These services are classified under APC 0437, which, per OPPS Addendum A, has a payment rate of $39.13. This amount multiplied by 60% yields an unadjusted labor-related amount of $23.48. This amount multiplied by the annual wage index for this facility of 0.8475 yields an adjusted labor-related amount of $19.90. The non-labor related portion is 40% of the APC rate or $15.65. The sum of the labor and non-labor related amounts is $35.55. The cost of these services does not exceed the annual fixed-dollar threshold of $2,025. The outlier payment amount is $0. The total Medicare facility specific reimbursement amount for this line is $35.55. This amount multiplied by 200% yields a MAR of $71.10.
- Procedure code 99284 has a status indicator of Q3, which denotes conditionally packaged codes that may be paid through a composite APC. If OPPS criteria are met, this service is assigned to composite APC 8003; however, review of the submitted information finds that the criteria for composite payment have not been met. Therefore, this line may be paid separately. This line is assigned status indicator V, which denotes a clinic or emergency department visit paid under OPPS with separate APC payment. These services are classified under APC 0615, which, per OPPS Addendum A, has a payment rate of $229.37. This amount multiplied by 60% yields an unadjusted labor-related amount of $137.62. This amount multiplied by the annual wage index for this facility of 0.8475 yields an adjusted labor-related amount of $116.63. The non-labor related portion is 40% of the APC rate or $91.75. The sum of the labor and non-labor related amounts is $208.38. The cost of these services does not exceed the annual fixed-dollar threshold of $2,025. The outlier payment amount is $0. The total Medicare facility specific reimbursement amount for this line is $208.38. This amount multiplied by 200% yields a MAR of $416.76.
- Procedure code J2405 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
- Procedure code J2550 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.

3. The total allowable reimbursement for the services in dispute is $534.32. This amount less the amount previously paid by the insurance carrier of $536.02 leaves an amount due to the requestor of $0.00. No additional reimbursement can be recommended..

Conclusion

For the reasons stated above, the Division finds that the requestor has not established that additional reimbursement is due. As a result, the amount ordered is $0.00.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to $0.00 reimbursement for the disputed services.
