Findings

1. 28 Texas Administrative Code §134.203(b)(1) states, in pertinent part, “for coding, billing reporting, and reimbursement of professional medical services, Texas Workers’ Compensation system participants shall apply the following: (1) Medicare payment policies, including its coding; billing; correct coding initiatives (CCI) edits; modifiers; ... and other payment policies in effect on the date a service is provided...” Review of the submitted documentation finds that the requestor performed an office visit for the evaluation and management of an established patient. The American Medical Association (AMA) CPT code description for **99204**:

Office or other outpatient visit for the evaluation and management of a new patient, which requires these 3 key components: A comprehensive history; A comprehensive examination; Medical decision making of moderate complexity. Counseling and/or coordination of care with other physicians, other qualified health care professionals, or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family's needs. Usually, the presenting problem(s) are of moderate to high severity. Typically, 45 minutes are spent face-to-face with the patient and/or family.

The 1997 Documentation Guidelines for Evaluation & Management Services is the applicable Medicare policy. It describes the documentation requirements for the service in dispute. Review of the documentation finds the following :

- Documentation of the Comprehensive History
 - History of Present Illness (HPI) consists of at least four elements of the HPI or the status of at least three chronic or inactive conditions. Documentation found listed four elements of HPI, this component was met.

The division concludes that the documentation does not support the level of service billed.
