MEDICAL FEE DISPUTE RESOLUTION FINDINGS AND DECISION

GENERAL INFORMATION

Requestor Name

Texas Health HEB

Respondent Name

Hartford Accident & Indemnity

MFDR Tracking Number

M4-15-0324-01

Carrier's Austin Representative

Box Number 47

MFDR Date Received

September 19, 2014

REQUESTOR'S POSITION SUMMARY

Requestor's Position Summary: "Per the new fee schedule this account qualifies for an Outlier payment..."

Amount in Dispute: \$2,246.00

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: "Our investigation has found that reimbursement was made in accordance with Rule 134.403 and that no additional reimbursement would be recommended."

Response Submitted by: The Hartford

SUMMARY OF FINDINGS

Date(s) of Service	Disputed Services	Amount In Dispute	Amount Due
March 14, 2014	Outpatient Hospital Services	\$2,246.60	\$2,110.09

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.403 sets out the fee guidelines for outpatient acute care hospital services.
3. 28 Texas Administrative Code §134.203 sets out the fee guidelines for professional medical services.
4. The services in dispute were reduced/denied by the respondent with the following reason codes:
 - 97 – Payment adjusted because the benefit for this service is included in the payment/allowance for another service/procedure that has already been adjudicated
 - W1 – Workers Compensation State fee schedule adjustment
 - 243 – The charge for this procedure was not paid since the value of this procedure is included/bundled with the value of another procedure performed
 - 802 – Charge for this procedure exceeds the OPPTS schedule allowance
 - 193 – Original payment decision is being maintained

Issues

1. What is the applicable rule for determining reimbursement for the disputed services?
2. What is the recommended payment amount for the services in dispute?
3. Is the requestor entitled to reimbursement?

Findings

1. This dispute relates to facility services performed in an outpatient hospital setting with reimbursement subject to the provisions of 28 Texas Administrative Code §134.403, which requires that the reimbursement calculation used for establishing the maximum allowable reimbursement (MAR) shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register with the application of minimal modifications as set forth in the rule. Per §134.403(f)(1), the sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 200 percent, unless a facility or surgical implant provider requests separate reimbursement of implantables. Review of the submitted documentation finds that separate reimbursement for implantables is not applicable.
2. Under the Medicare Outpatient Prospective Payment System (OPPS), each billed service is assigned an Ambulatory Payment Classification (APC) based on the procedure code used, the supporting documentation and the other services that appear on the bill. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Payment for ancillary and supportive items and services, including services that are billed without procedure codes, is packaged into payment for the primary service. A full list of APCs is published quarterly in the OPPS final rules which are publicly available through the Centers for Medicare and Medicaid Services (CMS) website. Reimbursement for the disputed services is calculated as follows:
 - Procedure code 36415 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code 80053 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code 85025 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code 81003 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code 72125 has a status indicator of Q3, which denotes conditionally packaged codes that may be paid through a composite APC. If OPPS criteria are met, this service is assigned to composite APC 8006. This service meets the criteria for composite payment. A service that is assigned to a composite APC is a major component of a single episode of care. The hospital receives one payment through a composite APC for multiple major separately identifiable services. Payment for any combination of designated procedures performed on the same date is packaged into a single payment. If a claim includes a composite payment that pays for more than one otherwise separately paid service, the charges for all services included in the composite are summed up to one line. To determine outlier payments, a single cost for the composite APC is estimated from the summarized charges. Total packaged cost is allocated to the composite line-item in proportion to other separately paid services on the claim. The payment for composite services is calculated below.
 - Procedure code 74177 has a status indicator of Q3, which denotes conditionally packaged codes that may be paid through a composite APC. If OPPS criteria are met, this service is assigned to composite APC 8006. This service meets the criteria for composite payment. A service that is assigned to a composite APC is a major component of a single episode of care. The hospital receives one payment through a composite APC for multiple major separately identifiable services. Payment for any combination of designated procedures performed on the same date is packaged into a single payment. If a claim includes a composite payment that pays for more than one otherwise separately paid service, the charges for all services included in the composite are summed up to one line. To determine outlier payments, a single cost for the composite APC is estimated from the summarized charges. Total packaged cost is allocated to the composite line-item in proportion to other separately paid services on the claim. The payment for composite services is calculated below.
 - Procedure code 70450 has a status indicator of Q3, which denotes conditionally packaged codes that may be paid through a composite APC. If OPPS criteria are met, this service is assigned to composite APC 8006. This service meets the criteria for composite payment. A service that is assigned to a composite APC is a major component of a single episode of care. The hospital receives one payment through a composite APC for multiple major separately identifiable services. Payment for any combination of designated

procedures performed on the same date is packaged into a single payment. If a claim includes a composite payment that pays for more than one otherwise separately paid service, the charges for all services included in the composite are summed up to one line. To determine outlier payments, a single cost for the composite APC is estimated from the summarized charges. Total packaged cost is allocated to the composite line-item in proportion to other separately paid services on the claim. The payment for composite services is calculated below.

- Procedure code 71260 has a status indicator of Q3, which denotes conditionally packaged codes that may be paid through a composite APC. If OPSS criteria are met, this service is assigned to composite APC 8006. This service meets the criteria for composite payment. A service that is assigned to a composite APC is a major component of a single episode of care. The hospital receives one payment through a composite APC for multiple major separately identifiable services. Payment for any combination of designated procedures performed on the same date is packaged into a single payment. If a claim includes a composite payment that pays for more than one otherwise separately paid service, the charges for all services included in the composite are summed up to one line. To determine outlier payments, a single cost for the composite APC is estimated from the summarized charges. Total packaged cost is allocated to the composite line-item in proportion to other separately paid services on the claim. The payment for composite services is calculated below.
 - Procedure code 99284 has a status indicator of Q3, which denotes conditionally packaged codes that may be paid through a composite APC if OPSS criteria are met; however, review of the submitted information finds that the criteria for composite payment have not been met. Therefore, this line may be paid separately. These services are classified under APC 0615, which, per OPSS Addendum A, has a payment rate of \$293.71. This amount multiplied by 60% yields an unadjusted labor-related amount of \$176.23. This amount multiplied by the annual wage index for this facility of 0.9549 yields an adjusted labor-related amount of \$168.28. The non-labor related portion is 40% of the APC rate or \$117.48. The sum of the labor and non-labor related amounts is \$285.76. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,900. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$285.76. This amount multiplied by 200% yields a MAR of \$571.52.
 - Procedure code 94760 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code Q9967 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure codes 72125, 74177, 70450, and 71260 have a status indicator of Q3, which denotes conditionally packaged codes that may be paid through a composite APC. This procedure code may be assigned to composite APC 8006, for computed tomography (CT) services including contrast; however, as no other CT services were provided, the criteria for composite payment are not met. This line is not assigned to a composite APC and may be paid separately. These services are classified under APC 8006, which, per OPSS Addendum A, has a payment rate of \$548.28. This amount multiplied by 60% yields an unadjusted labor-related amount of \$328.97. This amount multiplied by the annual wage index for this facility of 0.9549 yields an adjusted labor-related amount of \$314.13. The non-labor related portion is 40% of the APC rate or \$219.31. The sum of the labor and non-labor related amounts is \$533.44. Per 42 Code of Federal Regulations §419.43(d) and Medicare Claims Processing Manual, CMS Publication 100-04, Chapter 4, §10.7.1, if the total cost for a service exceeds 1.75 times the OPSS payment and also exceeds the annual fixed-dollar threshold of \$2,900, the outlier payment is 50% of the amount by which the cost exceeds 1.75 times the OPSS payment. Per the OPSS Facility-Specific Impacts file, CMS lists the cost-to-charge ratio for this provider as 0.231. This ratio multiplied by the billed charge of \$12,176.75 yields a cost of \$2,812.83. The total cost of all packaged items is allocated proportionately across all separately paid OPSS services based on the percentage of the total APC payment. The APC payment for these services of \$533.44 divided by the sum of all APC payments is 65.12%. The sum of all packaged costs is \$354.41. The allocated portion of packaged costs is \$230.78. This amount added to the service cost yields a total cost of \$3,043.61. The cost of these services exceeds the annual fixed-dollar threshold of \$2,900. The amount by which the cost exceeds 1.75 times the OPSS payment is \$2,110.09. 50% of this amount is \$1,055.05. The total Medicare facility specific reimbursement amount for this line, including outlier payment, is \$1,588.49. This amount multiplied by 200% yields a MAR of \$3,176.97.
3. The total allowable reimbursement for the services in dispute is \$3,748.49. This amount less the amount previously paid by the insurance carrier of \$1,638.40 leaves an amount due to the requestor of \$2,110.09. This amount is recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is \$2,110.09.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Sections 413.031 and 413.019 (if applicable), the Division has determined that the requestor is entitled to additional reimbursement for the services involved in this dispute. The Division hereby ORDERS the respondent to remit to the requestor the amount of \$2,110.09, plus applicable accrued interest per 28 Texas Administrative Code §134.130, due within 30 days of receipt of this order.

YOUR RIGHT TO APPEAL

Either party to this medical fee dispute has a right to seek review of this decision in accordance with 28 Texas Administrative Code §133.307, effective May 31, 2012, *37 Texas Register 3833*, **applicable to disputes filed on or after June 1, 2012.**

A party seeking review must submit a **Request to Schedule a Benefit Review Conference to Appeal a Medical Fee Dispute Decision** (form **DWC045M**) in accordance with the instructions on the form. The request must be received by the Division within **twenty** days of your receipt of this decision. The request may be faxed, mailed or personally delivered to the Division using the contact information listed on the form or to the field office handling the claim.

The party seeking review of the MDR decision shall deliver a copy of the request to all other parties involved in the dispute at the same time the request is filed with the Division. **Please include a copy of the *Medical Fee Dispute Resolution Findings and Decision*** together with any other required information specified in 28 Texas Administrative Code §141.1(d).
