Amount in Dispute: \$649.22

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: "Supplemental response will be provided once the bill auditing company has finalized their review."

Response Submitted By: Gallagher Bassett

SUMMARY OF FINDINGS

Dates of Service	Disputed Services	Amount In Dispute	Amount Due
April 10, 2014	CPT Code 97750-FC (13 units) Functional Capacity Evaluation (FCE)	\$649.22	\$649.22

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

- 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
- 28 Texas Administrative Code §133.10 sets out the billing procedures for health care providers.
- 28 Texas Administrative Code §134.204 and §134.203, effective March 1, 2008, sets the reimbursement guidelines for the disputed service.
- The services in dispute were reduced/denied by the respondent with the following reason codes:
 - 16-Claim/service lacks information or has submission/billing error(s) which is needed for adjudication.
 - 20, 206-National Provider Identifier-Missing.
 - BL-This bill is a reconsideration of a previously reviewed bill. Allowance amounts do not reflect previous payments.

Issues

- Did the provider list his license number and NPI in accordance with 28 Texas Administrative Code §133.10?

2. Does the documentation support the level of service billed?
3. Is the requestor entitled to reimbursement for the FCE rendered on April 10, 2014?

Findings

1. According to the explanation of benefits, the respondent denied reimbursement based upon the National Provider Identifier-Missing.

28 Texas Administrative Code §133.10(f)(1)(U) states “rendering provider's state license number (CMS-1500/field 24j, shaded portion) is required when the rendering provider is not the billing provider listed in CMS-1500/field 33; the billing provider shall enter the 'OB' qualifier and the license type, license number, and jurisdiction code (for example, 'MDF1234TX').”

28 Texas Administrative Code §133.10(f)(1)(V) states “rendering provider's NPI number (CMS-1500/field 24j, unshaded portion) is required when the rendering provider is not the billing provider listed in CMS-1500/field 33 and the rendering provider is eligible for an NPI number.”

A review of the bill finds that the requestor listed her valid license number in box 24j and NPI number in accordance with 28 Texas Administrative Code §133.10(f)(1)(U) and (V). The Division finds that the respondent's denial is not supported.

2. This dispute relates to services with reimbursement subject to the provisions of 28 Texas Administrative Code §134.204.

On the disputed date of service, the requestor billed CPT code 97750-FC.

The American Medical Association (AMA) Current Procedural Terminology (CPT) defines CPT code 97750 as “Physical performance test or measurement (eg, musculoskeletal, functional capacity), with written report, each 15 minutes.”

The requestor appended modifier “FC” to code 97750. 28 Texas Administrative Code §134.204(n)(3) states “The following Division Modifiers shall be used by HCPs billing professional medical services for correct coding, reporting, billing, and reimbursement of the procedure codes. (3) FC, Functional Capacity-This modifier shall be added to CPT Code 97750 when a functional capacity evaluation is performed”.

28 Texas Administrative Code §134.204(g) states “The following applies to Functional Capacity Evaluations (FCEs). A maximum of three FCEs for each compensable injury shall be billed and reimbursed. FCEs ordered by the Division shall not count toward the three FCEs allowed for each compensable injury. FCEs shall be billed using CPT Code 97750 with modifier "FC." FCEs shall be reimbursed in accordance with §134.203(c)(1) of this title. Reimbursement shall be for up to a maximum of four hours for the initial test or for a Division ordered test; a maximum of two hours for an interim test; and, a maximum of three hours for the discharge test, unless it is the initial test. Documentation is required. FCEs shall include the following elements:

(1) A physical examination and neurological evaluation, which include the following:

- (A) appearance (observational and palpation);
- (B) flexibility of the extremity joint or spinal region (usually observational);
- (C) posture and deformities;
- (D) vascular integrity;
- (E) neurological tests to detect sensory deficit;
- (F) myotomal strength to detect gross motor deficit; and
- (G) reflexes to detect neurological reflex symmetry.

(2) A physical capacity evaluation of the injured area, which includes the following:

- (A) range of motion (quantitative measurements using appropriate devices) of the injured joint or region; and
- (B) strength/endurance (quantitative measures using accurate devices) with comparison to contralateral side or normative database. This testing may include isometric, isokinetic, or isoinertial devices in one or more planes.

(3) Functional abilities tests, which include the following:

- (A) activities of daily living (standardized tests of generic functional tasks such as pushing, pulling, kneeling, squatting, carrying, and climbing);
- (B) hand function tests that measure fine and gross motor coordination, grip strength, pinch strength, and manipulation tests using measuring devices;
- (C) submaximal cardiovascular endurance tests which measure aerobic capacity using stationary bicycle or treadmill; and
- (D) static positional tolerance (observational determination of tolerance for sitting or standing).”

The requestor states in the position summary that the disputed FCE was requested by the Designated Doctor. A review of the submitted medical bill indicates that the requestor billed for thirteen units, which equals 31/4 hours; therefore, the requestor did not exceed the four hour limit set in 28 Texas Administrative Code §134.204(g) for Division ordered FCEs.

The requestor submitted a copy of the FCE report that indicates the examination totaled three hours and fifteen minutes. As a result, reimbursement is recommended.

3. Per 28 Texas Administrative Code §134.204(g) to determine the reimbursement for FCEs the Division refers to 28 Texas Administrative Code §134.203(c)(1)(2).

Per 28 Texas Administrative Code §134.203(c)(1)(2), the following formula is used to calculate the Maximum Allowable Reimbursement (MAR): (DWC Conversion Factor/Medicare Conversion Factor) X Participating Amount = MAR.

The 2014 DWC conversion factor for this service is 55.75.

The Medicare Conversion Factor is 35.8228.

Review of Box 32 on the CMS-1500 finds that the services were rendered in zip code 76021 which is located in Bedford, Texas; therefore, the Medicare locality is "Rest of Texas."

The Medicare participating amount for CPT code 97750 is \$32.09.

Using the above formula, the MAR is \$49.94 per unit. The requestor billed for 13 units; therefore, \$49.94 X 13 = \$649.22. The respondent paid \$0.00. The difference between MAR and amount paid is \$649.22; this amount is recommended for reimbursement.

Conclusion

For the reasons stated above, the Division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is \$649.22.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Sections 413.031 and 413.019 (if applicable), the Division has determined that the requestor is entitled to additional reimbursement for the services involved in this dispute. The Division hereby ORDERS the respondent to remit to the requestor the amount of \$649.22 plus applicable accrued interest per 28 Texas Administrative Code §134.130, due within 30 days of receipt of this Order.
