REQUESTOR'S POSITION SUMMARY

Requestor's Position Summary: "First Flight charges are being paid subject to a Workers Compensation ('Fee Schedule') amount or by a usual and reasonable fee based on faulty data, and should have been paid in full. This is because the statute and regulation limiting payment to the fee schedule amount, and the fee schedule itself, do not apply to air ambulance carriers due to federal preemption under federal aviation law. . . . Thus, First Flight is entitled to be paid based on full billed charges."

Amount in Dispute: \$27,708.75

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: "Texas Mutual has applied the fair and reasonable reimbursement rate of 125% of the Medicare reimbursement fee provided to air ambulance providers."

Response Submitted by: Texas Mutual Insurance Company

Issues

1. Does the Federal Aviation Act preempt the authority of the Texas Labor Code to regulate air ambulance services?
2. Is additional reimbursement due?

Findings

1. The requestor maintains that the Federal Aviation Act, as amended by the Airline Deregulation Act of 1978, 49 U.S.C. §41713, preempts the authority of the Texas Labor Code to apply the Division’s medical fee guidelines to air ambulance services. The respondent argues that the McCarran-Ferguson Act supersedes the preemption provisions of the Federal Aviation Act, as amended by the ADA. This threshold legal issue was considered by the State Office of Administrative Hearings (SOAH) in *PHI Air Medical v. Texas Mutual Insurance Company*, Docket number 454-12-7770.M4, *et al.*, which held that “the Airline Deregulation Act does not preempt state worker’s compensation rules and guidelines that establish the reimbursement allowed for the air ambulance services . . . rendered to injured workers (claimants).” SOAH found that:

In particular, the McCarran-Ferguson Act explicitly reserves the regulation of insurance to the states and provides that any federal law that infringes upon that regulation is preempted by the state insurance laws, unless the federal law specifically relates to the business of insurance. In this case, there is little doubt that the worker’s compensation system adopted in Texas is directly related to the business of insurance . . .

The Division agrees. The Division concludes that its jurisdiction to consider the medical fee issues in this dispute is not preempted by the Federal Aviation Act, or the Airline Deregulation Act of 1978, based upon SOAH’s threshold issue discussion and the information provided by the parties in this medical fee dispute. The disputed services will therefore be decided pursuant to Texas Labor Code §413.031 and all applicable rules and fee guidelines of the Texas Department of Insurance, Division of Workers’ Compensation.

2. The services in dispute are air ambulance transportation services for which the Division has not established a medical fee guideline. No documentation was found to support a negotiated contract between the parties or that the health care was provided through a workers' compensation health care network. Reimbursement is therefore subject to the general medical reimbursement provisions of 28 Texas Administrative Code §134.1(e), which requires that in the absence of an applicable fee guideline or a negotiated contract, medical reimbursement for health care not provided through a workers' compensation health care network shall be made in accordance with a fair and reasonable reimbursement amount as specified in §134.1(f).

28 Texas Administrative Code §134.1(f) requires that:

Fair and reasonable reimbursement shall:

- (1) be consistent with the criteria of Labor Code §413.011;
- (2) ensure that similar procedures provided in similar circumstances receive similar reimbursement; and
- (3) be based on nationally recognized published studies, published Division medical dispute decisions, and/or values assigned for services involving similar work and resource commitments, if available.

The Texas Supreme Court has summarized the statutory standards and criteria applicable to “fair and reasonable” fee determinations as requiring “methodologies that determine fair and reasonable medical fees, ensure quality medical care to injured workers, and achieve effective cost control.” *Texas Workers’ Compensation Commission v. Patient Advocates of Texas*, 136 *South Western Reporter Third* 643, 656 (Texas 2004).

Additionally, the Third Court of Appeals has held, in *All Saints Health System v. Texas Workers’ Compensation Commission*, 125 *South Western Reporter Third* 96, 104 (Texas Appeals – Austin 2003, petition for review denied), that “each . . . reimbursement should be evaluated according to [Texas Labor Code] section 413.011(d)’s definition of ‘fair and reasonable’ fee guidelines as implemented by Rule 134.1 for case-by-case determinations.”

Texas Labor Code §413.011(d) requires that:

Fee guidelines must be fair and reasonable and designed to ensure the quality of medical care and to achieve effective medical cost control. The guidelines may not provide for payment of a fee in excess of the fee charged for similar treatment of an injured individual of an equivalent standard of living and paid by that individual or by someone acting on that individual's behalf. The commissioner shall consider the increased security of payment afforded by this subtitle in establishing the fee guidelines.

28 Texas Administrative Code §133.307(c)(2)(O), requires the requestor to provide “documentation that discusses, demonstrates, and justifies that the payment amount being sought is a fair and reasonable rate of reimbursement in accordance with §134.1 . . . when the dispute involves health care for which the division has not established a maximum allowable reimbursement (MAR) or reimbursement rate, as applicable.”

Review of the submitted documentation finds that:

- The requestor’s position statement asserts that “First Flight is entitled to be paid based on full billed charges.”
- The Division has previously found, as stated in the adoption preamble to the former *Acute Care Inpatient Hospital Fee Guideline*, that “hospital charges are not a valid indicator of a hospital’s costs of providing services nor of what is being paid by other payors” (22 *Texas Register* 6271). The Division further considered alternative methods of reimbursement that use hospital charges as their basis; such methods were rejected because they “allow the hospitals to affect their reimbursement by inflating their charges” (22 *Texas Register* 6268-6269). While an air ambulance company is not a hospital, the above principle is of similar concern in the present case. A health care provider’s usual and customary charges are not evidence of a fair and reasonable rate or of what insurance companies are paying for the same or similar services. Payment of the “full billed charges” is not acceptable when it leaves the ultimate reimbursement in the control of the health care provider—which would ignore the objective of effective cost control and the statutory standard not to pay more than for similar treatment of an injured individual of an equivalent standard of living. Therefore, the use of a health care provider’s “usual and customary” charges cannot be favorably considered unless other data or documentation is submitted to support that the payment amount being sought is a fair and reasonable reimbursement for the services in dispute.
- The requestor does not discuss or explain how payment of full billed charges would result in a fair and reasonable reimbursement for the services in dispute.
- The requestor did not submit documentation to support that payment of the amount sought is a fair and reasonable rate of reimbursement for the services in dispute.
- The requestor did not submit nationally recognized published studies or documentation of values assigned for services involving similar work and resource commitments to support the requested reimbursement.
- The requestor did not support that payment of the requested amount would satisfy the requirements of 28 Texas Administrative Code §134.1.

The request for additional reimbursement is not supported. Thorough review of the submitted documentation finds that the requestor has not demonstrated or justified that payment of the amount sought would be a fair and reasonable rate of reimbursement for the services in dispute. Additional payment cannot be recommended.

Conclusion

In resolving disputes regarding the amount of payment due for health care determined to be medically necessary and appropriate for treatment of a compensable injury, the role of the Division is to adjudicate the payment, given the relevant statutory provisions and Division rules. The Division would like to emphasize that the outcome of this medical fee dispute relied upon the evidence presented by the requestor and the respondent. Even though all the evidence was not discussed, it was considered.

For the reasons stated above, the Division finds that the requestor has failed to establish that additional reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the services in dispute.
