MEDICAL FEE DISPUTE RESOLUTION FINDINGS AND DECISION

GENERAL INFORMATION

Requestor Name
Baylor Surgical Hospital

Respondent Name
Merged Connecticut Indemnity

MFDR Tracking Number
M4-15-1615-01

Carrier's Austin Representative
Box Number 11

MFDR Date Received
January 29, 2015

REQUESTOR'S POSITION SUMMARY

Requestor's Position Summary: "The claim listed above was not processed according to Texas fee guidelines for outpatient services."

Amount in Dispute: $12,836.80

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: "It is the Carrier's position that they owe no further payment on this bill."

Response Submitted by: Cunningham Lindsey U.S., Inc, 314 Highland Mall Blvd, Suite 202, Austin, TX 78752

SUMMARY OF FINDINGS

Date(s) of Service	Disputed Services	Amount In Dispute	Amount Due
April 16 – 21, 2014	Outpatient Hospital Services	$12,836.80	$12,836.80

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.403 sets out the fee guidelines for outpatient acute care hospital services.
3. The services in dispute were reduced/denied by the respondent with the following reason codes:
   - 97 – The benefit for this service is included in the payment/allowance for another service/procedure that has already been adjudicated
   - W1 – Workers compensation state fee schedule adjustment

Issues

1. What is the applicable rule for determining reimbursement for the disputed services?
2. What is the recommended payment amount for the services in dispute?
3. Is the requestor entitled to reimbursement?

Findings

1. This dispute relates to facility services performed in an outpatient hospital setting with reimbursement subject to the provisions of 28 Texas Administrative Code §134.403, which requires that the reimbursement calculation used for establishing the maximum allowable reimbursement (MAR) shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register with the application of minimal modifications as set forth in the rule. Per §134.403(f)(1), the sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 200 percent, unless a facility or surgical implant provider requests separate reimbursement of implantables. Review of the submitted documentation finds that separate reimbursement for implantables was requested. Therefore, per §134.403(f)(1)(B), the facility specific reimbursement amount including outlier payments is multiplied by 130 percent. Per §134.403(f)(2), when calculating outlier payment amounts, the facility's total billed charges shall be reduced by the facility's billed charges for any item reimbursed separately under §134.403(g). The facility's total billed charges for the separately reimbursed implantable items are $12,145.00. Accordingly, the facility's total billed charges shall be reduced by this amount for the purpose of calculating any outlier payments below.
2. Under the Medicare Outpatient Prospective Payment System (OPPS), each billed service is assigned an Ambulatory Payment Classification (APC) based on the procedure code used, the supporting documentation and the other services that appear on the bill. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Payment for ancillary and supportive items and services, including services that are billed without procedure codes, is packaged into payment for the primary service. A full list of APCs is published quarterly in the OPPS final rules which are publicly available through the Centers for Medicare and Medicaid Services (CMS) website. Reimbursement for the disputed services is calculated as follows:
   - Procedure code C1755 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
   - Procedure code C1772 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
   - Procedure code 36415, date of service April 16, 2014, has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
   - Procedure code 80048, date of service April 16, 2014, has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
   - Procedure code 81025 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
   - Procedure code 84132 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
   - Procedure code 85025, date of service April 16, 2014, has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
   - Procedure code 62350 has a status indicator of T, which denotes a significant procedure subject to multiple-procedure discounting. The highest paying status T procedure is paid at 100%; all others are paid at 50%. This procedure is paid at 50%. These services are classified under APC 0224, which, per OPPS Addendum A, has a payment rate of $3,415.65. This amount multiplied by 60% yields an unadjusted labor-related amount of $2,049.39. This amount multiplied by the annual wage index for this facility of 0.9549 yields an adjusted labor-related amount of $1,956.96. The non-labor related portion is 40% of the APC rate or $1,366.26. The sum of the labor and non-labor related amounts is $3,323.22. The cost of these services does not exceed the annual fixed-dollar threshold of $2,900. The outlier payment amount is $0. The total Medicare facility specific reimbursement amount for this line, including multiple-procedure discount, is $1,661.61. This amount multiplied by 130% yields a MAR of $2,160.09.
   - Procedure code 62362 has a status indicator of T, which denotes a significant procedure subject to multiple-procedure discounting. The highest paying status T procedure is paid at 100%; all others are paid at 50%. This procedure is paid at 100%. These services are classified under APC 0227, which, per OPPS Addendum A, has a payment rate of $14,649.77. This amount multiplied by 60% yields an unadjusted labor-related amount of $8,789.86. This amount multiplied by the annual wage index for this facility of 0.9549 yields an adjusted labor-related amount of $8,393.44. The non-labor related portion is 40% of the APC rate or $5,859.91. The sum of the labor and non-labor related amounts is $14,253.35. The cost of these services does not exceed the annual fixed-dollar threshold of $2,900. The outlier payment amount is $0.

The total Medicare facility specific reimbursement amount for this line is $14,253.35. This amount multiplied by 130% yields a MAR of $18,529.36.

- Procedure code J0690 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
- Procedure code J2001 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
- Procedure code 93005 has a status indicator of S, which denotes a significant procedure, not subject to multiple-procedure discounting, paid under OPPS with separate APC payment. These services are classified under APC 0099, which, per OPPS Addendum A, has a payment rate of $27.12. This amount multiplied by 60% yields an unadjusted labor-related amount of $16.27. This amount multiplied by the annual wage index for this facility of 0.9549 yields an adjusted labor-related amount of $15.54. The non-labor related portion is 40% of the APC rate or $10.85. The sum of the labor and non-labor related amounts is $26.39. The cost of these services does not exceed the annual fixed-dollar threshold of $2,900. The outlier payment amount is $0. The total Medicare facility specific reimbursement amount for this line is $26.39. This amount multiplied by 130% yields a MAR of $34.31.

3. Additionally, the provider requested separate reimbursement of implantables. Per §134.403(g), "Implantables, when billed separately by the facility or a surgical implant provider in accordance with subsection (f)(1)(B) of this section, shall be reimbursed at the lesser of the manufacturer's invoice amount or the net amount (exclusive of rebates and discounts) plus 10 percent or $1,000 per billed item add-on, whichever is less, but not to exceed $2,000 in add-on's per admission." Review of the submitted documentation finds that the separate implantables include:
   - "Medtronic synchromed 20" as identified in the itemized statement and labeled on the invoice as "pump 8637 20 sychmed" with a cost per unit of $11,200.00;
   - "Sutureless pump connector" as identified in the itemized statement and labeled on the invoice as "cath 8578 kit" with a cost per unit of $150.00;
   - "Personal therapy manager" as identified in the itemized statement and labeled on the invoice as "personal therapy" with a cost per unit of $795.00.

   The total net invoice amount (exclusive of rebates and discounts) is $12,145.00. The total add-on amount of 10% or $1,000 per billed item add-on, whichever is less, but not to exceed $2,000 in add-on's per admission is $1,094.50. The total recommended reimbursement amount for the implantable items is $13,239.50.
4. The total allowable reimbursement for the services in dispute is $33,963.26. The amount previously paid by the insurance carrier is $20,895.73. The requestor is seeking additional reimbursement in the amount of $12,836.80. This amount is recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is $12,836.80.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Sections 413.031 and 413.019 (if applicable), the Division has determined that the requestor is entitled to additional reimbursement for the services involved in this dispute. The Division hereby ORDERS the respondent to remit to the requestor the amount of $12,836.80, plus applicable accrued interest per 28 Texas Administrative Code §134.130, due within 30 days of receipt of this order.
