MEDICAL FEE DISPUTE RESOLUTION FINDINGS AND DECISION

GENERAL INFORMATION

Requestor Name

Baylor Surgical Hospital

Respondent Name

Zenith Insurance Co

MFDR Tracking Number

M4-15-1695-01

Carrier's Austin Representative

Box Number 47

MFDR Date Received

February 4, 2015

REQUESTOR'S POSITION SUMMARY

Requestor's Position Summary: "The claim listed above was not processed according to Texas fee guidelines for outpatient services."

Amount in Dispute: \$2,757.56

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: "Disputed Code 25404, Zenith previously paid \$8,230.15. Upon further review, an additional \$54.81 is due to the provider. Disputed Code C1713, This procedure was previously reimbursed at \$1,057.36 (invoice cost) 1 10% = \$1,163.10. Upon further review, we are not recommending additional payment. Disputed code C1760, Charges were previously disallowed. Upon further review, we are not recommending payment for this procedure as we have not received the requested documentation. The services not in dispute (amount billed \$8,000.61) were disallowed correctly as procedure are packaged into the payment of other services performed on the same date of services."

Response Submitted by: Zenith Insurance Company

SUMMARY OF FINDINGS

Date(s) of Service	Disputed Services	Amount In Dispute	Amount Due
April 10-12, 2014	Outpatient Hospital Services	\$2,757.56	\$2,563.33

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

- 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
- 28 Texas Administrative Code §134.403 sets out the fee guidelines for outpatient acute care hospital services.
- The services in dispute were reduced/denied by the respondent with the following reason codes:
 - 350 – Bill has been identified as a request for reconsideration or appeal
 - 370 – This hospital outpatient allowance was calculated according to the APC rate, plus a markup
 - 618 – The value of this procedure is packaged into the payment of other services performed on the same date of service

Issues

1. What is the applicable rule for determining reimbursement for the disputed services?
2. What is the recommended payment amount for the services in dispute?
3. What is the additional recommended payment for the implantable items in dispute?
4. Is the requestor entitled to reimbursement?

Findings

1. This dispute relates to facility services performed in an outpatient hospital setting with reimbursement subject to the provisions of 28 Texas Administrative Code §134.403, which requires that the reimbursement calculation used for establishing the maximum allowable reimbursement (MAR) shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register with the application of minimal modifications as set forth in the rule. Per §134.403(f)(1), the sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 200 percent, unless a facility or surgical implant provider requests separate reimbursement of implantables. Review of the submitted documentation finds that separate reimbursement for implantables was requested. Therefore, per §134.403(f)(1)(B), the facility specific reimbursement amount including outlier payments is multiplied by 130 percent. Per §134.403(f)(2), when calculating outlier payment amounts, the facility's total billed charges shall be reduced by the facility's billed charges for any item reimbursed separately under §134.403(g). The facility's total billed charges for the separately reimbursed implantable items are \$3,477.61. Accordingly, the facility's total billed charges shall be reduced by this amount for the purpose of calculating any outlier payments below. Review of the "Itemized Bill" finds charges for Revenue Code 278/HCPCs code C1713 for "Rep Stapler Head" in the amount of \$16.00 and "Gelfoam size 100" for \$20.78. These items were not supported by an invoice nor do they meet the definition of implantable. These charges will not be considered separately.
2. Under the Medicare Outpatient Prospective Payment System (OPPS), each billed service is assigned an Ambulatory Payment Classification (APC) based on the procedure code used, the supporting documentation and the other services that appear on the bill. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Payment for ancillary and supportive items and services, including services that are billed without procedure codes, is packaged into payment for the primary service. A full list of APCs is published quarterly in the OPPS final rules which are publicly available through the Centers for Medicare and Medicaid Services (CMS) website. Reimbursement for the disputed services is calculated as follows:
 - Procedure code C1713 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code C1760 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code 80048 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code 25405 has a status indicator of T, which denotes a significant procedure subject to multiple-procedure discounting. The highest paying status T procedure is paid at 100%; all others are paid at 50%. This procedure is paid at 100%. These services are classified under APC 0052, which, per OPPS Addendum A, has a payment rate of \$6,506.96. This amount multiplied by 60% yields an unadjusted labor-related amount of \$3,904.18. This amount multiplied by the annual wage index for this facility of 0.9549 yields an adjusted labor-related amount of \$3,728.10. The non-labor related portion is 40% of the APC rate or \$2,602.78. The sum of the labor and non-labor related amounts is \$6,330.88. Per 42 Code of Federal Regulations §419.43(d) and Medicare Claims Processing Manual, CMS Publication 100-04, Chapter 4, §10.7.1, if the total cost for a service exceeds 1.75 times the OPPS payment and also exceeds the annual fixed-dollar threshold of \$2,900, the outlier payment is 50% of the amount by which the cost exceeds 1.75 times the OPPS payment. Per the OPPS Facility-Specific Impacts file, CMS lists the cost-to-charge ratio for this provider as 0.213. This ratio multiplied by the billed charge of \$15,166.00 yields a cost of \$3,230.36. The total cost of all packaged items is allocated proportionately across all separately paid OPPS services based on the percentage of the total APC payment. The APC payment for these services of \$6,330.88 divided by the sum of all APC payments is 100.00%. The sum of all packaged costs is \$1,711.95. The allocated portion of packaged costs is \$1,711.95. This amount added to the service cost yields a total cost of \$4,942.31. The cost of these services exceeds the annual fixed-dollar threshold of \$2,900. The amount by which the cost exceeds 1.75 times the OPPS payment is \$0.00. The total Medicare facility specific reimbursement amount for this line is \$6,330.88. This amount multiplied by 130% yields a MAR of \$8,230.14.

- Procedure code J0690 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J1885 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J2001 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J2275 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J2795 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J3010 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J2275, date of service April 11, 2014, has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
3. Additionally, the provider requested separate reimbursement of implantables. Per §134.403(g), "Implantables, when billed separately by the facility or a surgical implant provider in accordance with subsection (f)(1)(B) of this section, shall be reimbursed at the lesser of the manufacturer's invoice amount or the net amount (exclusive of rebates and discounts) plus 10 percent or \$1,000 per billed item add-on, whichever is less, but not to exceed \$2,000 in add-on's per admission." Review of the submitted documentation finds that the separate implantables include:
- "3.5mm lcp olecranon plat " as identified in the itemized statement and labeled on the invoice as "3.5mm lcp olecranon plact " with a cost per unit of \$1,057.36;
 - "3.5mm locking screw slf" as identified in the itemized statement and labeled on the invoice as "3.5mm locking screw slf-tpng" with a cost per unit of \$131.59 at 5 units, for a total cost of \$657.95;
 - "3.5mm locking screw slf-" as identified in the itemized statement and labeled on the invoice as "3.5mm locking screw slf-tpng" with a cost per unit of \$131.59 at 4 units, for a total cost of \$526.36;
 - "3.5mm locking screw slf- " as identified in the itemized statement and labeled on the invoice as "3.5mm locking screw slf-tpng" with a cost per unit of \$131.59 at 3 units, for a total cost of \$394.77;
 - "3.5mm locking screw slf-" as identified in the itemized statement and labeled on the invoice as "3.5mm locking screw slf-tpng" with a cost per unit of \$131.59 at 2 units, for a total cost of \$263.18;
 - "3.5mm clp plate 6 holes" as identified in the itemized statement and labeled on the invoice as "3.5mm lcp plate 6 holes 85mm" with a cost per unit of \$316.13;
 - "3.5mm locking screw slf-" as identified in the itemized statement and labeled on the invoice as "3.5mm locking screw slf-tpng" with a cost per unit of \$131.59;
 - "3.5mm cortex screw self-" as identified in the itemized statement and labeled on the invoice as "3.5mm cortex screw self-tapping" with a cost per unit of \$22.54 at 2 units, for a total cost of \$45.08;
 - "3.5mm cortex screw self-" as identified in the itemized statement and labeled on the invoice as "3.5mm cortex screw self-tapping" with a cost per unit of \$22.54;
 - "3.5mm cortex screw self-" as identified in the itemized statement and labeled on the invoice as "3.5mm cortex screw self-tapping" with a cost per unit of \$22.54.

The total net invoice amount (exclusive of rebates and discounts) is \$3,437.50. The total add-on amount of 10% or \$1,000 per billed item add-on, whichever is less, but not to exceed \$2,000 in add-on's per admission is \$343.75. The total recommended reimbursement amount for the implantable items is \$3,781.25.

4. The total allowable reimbursement for the services in dispute is \$12,011.39. This amount less the amount previously paid by the insurance carrier of \$9,448.06 leaves an amount due to the requestor of \$2,563.33. This amount is recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is \$2,563.33.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Sections 413.031 and 413.019 (if applicable), the Division has determined that the requestor is entitled to additional reimbursement for the services involved in this dispute. The Division hereby ORDERS the respondent to remit to the requestor the amount of \$2,563.33, plus applicable accrued interest per 28 Texas Administrative Code §134.130, due within 30 days of receipt of this order.

YOUR RIGHT TO APPEAL

Either party to this medical fee dispute has a right to seek review of this decision in accordance with 28 Texas Administrative Code §133.307, effective May 31, 2012, *37 Texas Register 3833*, **applicable to disputes filed on or after June 1, 2012.**

A party seeking review must submit a **Request to Schedule a Benefit Review Conference to Appeal a Medical Fee Dispute Decision** (form **DWC045M**) in accordance with the instructions on the form. The request must be received by the Division within **twenty** days of your receipt of this decision. The request may be faxed, mailed or personally delivered to the Division using the contact information listed on the form or to the field office handling the claim.

The party seeking review of the MDR decision shall deliver a copy of the request to all other parties involved in the dispute at the same time the request is filed with the Division. **Please include a copy of the *Medical Fee Dispute Resolution Findings and Decision*** together with any other required information specified in 28 Texas Administrative Code §141.1(d).
