FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

- 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
- 28 Texas Administrative Code §134.540 sets out the guidelines for use of the closed formulary for claims subject to certified networks.
- The insurance carrier reduced payment for the disputed services with the following claim adjustment codes:
 - CAC-45 – Charge exceeds fee schedule/maximum allowable or contracted/legislated fee arrangement.
 - 784 – Service exceeds recommendations of treatment guidelines (ODG).

Issues

- 1. Is the insurance carrier’s reason for denial of payment supported?

Findings

1. The insurance carrier denied disputed services with claim adjustment reason code “784 – Service exceeds recommendations of treatment guidelines (ODG).” 28 Texas Administrative Code §134.540 (b) states, in relevant part, “Preauthorization for claims subject to the Division's closed formulary. Preauthorization is only required for: ... (2) any compound that contains a drug identified with a status of ‘N’ in the current edition of the *ODG Treatment in Workers' Comp* (ODG) / Appendix A, *ODG Workers' Compensation Drug Formulary*, and any updates.” Review of the submitted documentation finds that the dispute involves a compound drug that includes the ingredients Lidocaine and Menthol. The *ODG Treatment in Workers' Comp* (ODG) / Appendix A, *ODG Workers' Compensation Drug Formulary* in effect on the date of service finds that Lidocaine is an “N” status drugs. Therefore, the compound requires preauthorization.

28 Texas Administrative Code §134.540 (e)(1) states, “For situations in which the prescribing doctor determines and documents that a drug excluded from the closed formulary is necessary to treat an injured employee's compensable injury and has prescribed the drug, the prescribing doctor, other requestor, or injured employee must request approval of the drug in a specific instance by requesting preauthorization in accordance with the certified network's preauthorization process established pursuant to Chapter 10, Subchapter F of this title (relating to Utilization Review and Retrospective Review) and applicable provisions of Chapter 19 of this title (relating to Agents' Licensing).” Review of the submitted documentation does not indicate that a preauthorization was requested or obtained. The insurance carrier’s denial reason is supported. Additional reimbursement cannot be recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has not established that additional reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the disputed services.
