Table with 4 columns: Date(s) of Service, Disputed Services, Amount In Dispute, Amount Due. Row 1: January 9, 2015, Outpatient Hospital Services, \$161.80, \$0.00

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

- 1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.403 sets out the fee guidelines for outpatient acute care hospital services.
3. The services in dispute were reduced/denied by the respondent with the following reason codes:
• P12 – Workers compensation jurisdictional fee schedule adjus
• 97 – The benefit for this service is included in the payment/allowance for another service/procedure that has already been adjudicated

The Division placed a copy of the Medical Fee Dispute Resolution request in the insurance carrier's Austin representative box, which was acknowledged, received on June 4, 2015. Per 28 Texas Administrative Code

§133.307(d)(1), "The response will be deemed timely if received by the division via mail service, personal delivery, or facsimile within 14 calendar days after the date the respondent received the copy of the requestor's dispute. If the division does not receive the response information within 14 calendar days of the dispute notification, then the division may base its decision on the available information." The insurance carrier did not submit any response for consideration in this dispute. Accordingly, this decision is based on the information available at the time of review.

### **Issues**

1. What is the applicable rule for determining reimbursement for the disputed services?
2. What is the recommended payment amount for the services in dispute?
3. Is the requestor entitled to reimbursement?

### **Findings**

1. 28 Texas Administrative Code §134.403 states in pertinent part (f) The reimbursement calculation used for establishing the MAR shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register. The following minimal modifications shall be applied. (1) The sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by: (A) 200 percent; unless (B) a facility or surgical implant provider requests separate reimbursement in accordance with subsection (g) of this section, in which case the facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 130 percent. (2) When calculating outlier payment amounts, the facility's total billed charges shall be reduced by the facility's billed charges for any item reimbursed separately under subsection (g) of this section.
2. Under the Medicare Outpatient Prospective Payment System (OPPS), each billed service is assigned an Ambulatory Payment Classification (APC) based on the procedure code used, the supporting documentation and the other services that appear on the bill. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Payment for ancillary and supportive items and services, including services that are billed without procedure codes, is packaged into payment for the primary service. A full list of APCs is published quarterly in the OPPS final rules which are publicly available through the Centers for Medicare and Medicaid Services (CMS) website. Reimbursement for the disputed services is calculated as follows:
  - Procedure code 12002 has a status indicator of Q1, which denotes STVX-packaged codes; payment for these services is packaged into the payment for any other procedures with status indicators S, T, V, or X performed on the same date. This code may be separately payable only if no other such procedures are reported for the same date.
  - Procedure code 99283 has a status indicator of V, which denotes a clinic or emergency department visit paid under OPPS with separate APC payment. These services are classified under APC 0614, which, per OPPS Addendum A, has a payment rate of \$198.39. This amount multiplied by 60% yields an unadjusted labor-related amount of \$119.03. This amount multiplied by the annual wage index for this facility of 0.7926 yields an adjusted labor-related amount of \$94.34. The non-labor related portion is 40% of the APC rate or \$79.36. The sum of the labor and non-labor related amounts is \$173.70. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,775. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$173.70. This amount multiplied by 200% yields a MAR of \$347.40.
3. The total allowable reimbursement for the services in dispute is \$347.40. This amount less the amount previously paid by the insurance carrier of \$347.40 leaves an amount due to the requestor of \$0.00. No additional reimbursement can be recommended.

**Conclusion**

For the reasons stated above, the Division finds that the requestor has not established that additional reimbursement is due. As a result, the amount ordered is \$0.00.

***ORDER***

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the disputed services.
