MEDICAL FEE DISPUTE RESOLUTION FINDINGS AND DECISION

GENERAL INFORMATION

Requestor Name

Texas Pain Relief Group

Respondent Name

Old Republic Insurance Co

MFDR Tracking Number

M4-16-1730-01

Carrier's Austin Representative

Box Number 44

MFDR Date Received

February 22, 2016

REQUESTOR'S POSITION SUMMARY

Requestor's Position Summary: "Gallagher Bassett is denying these claims due to ODG guidelines. However ODG Guidelines states we can do 3 drug screens every 6 months and more if the risk level is higher."

Amount in Dispute: \$1,000.00

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: "It is Coventry's position that in order to ensure proper documentation, coding and validate the services where performed in accordance to ODG; having the provider submit a clean bill is both within the TX fee schedule regulations..."

Response Submitted by: Gallagher Bassett Services

SUMMARY OF FINDINGS

Dates of Service	Disputed Services	Amount In Dispute	Amount Due
August 14, 2015	Urinary Drug Screen	\$1,000.00	\$94.54

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the requirements for filing a medical fee dispute.
2. 28 Texas Administrative Code §133.210 sets out the documents required to be filed with medical bills during the medical billing process.
3. 28 Texas Administrative Code Part 1, Chapter 19, Subchapter U sets out the requirements for utilization review of health care provided under Texas workers' compensation insurance coverage.
4. 28 Texas Administrative Code §134.203 sets out the reimbursement for clinical laboratory services.

5. The services in dispute were reduced/denied by the respondent with the following reason codes:
 - 2 – CV – The documentation submitted does not support the rationale for 3 or more drug tests performed in a 6 month consecutive time period as this exceeds the recommended standard for the timeframe.
 - 4 – Original payment decision is being maintained
 - 999 – CV reconsideration – no additional allowance recommended. This bill and submitted documentation have been re-evaluated by clinical validation. Submitted documentation does not support an additional allowance.

Issues

1. Did the requestor meet division documentation requirements?
2. Did the carrier appropriately request additional documentation?
3. Did the carrier appropriately raise reasonableness and medical necessity?
4. Were Medicare policies met?
5. Is reimbursement due?

Findings

1. The respondent's claim adjustment code 2 – CV – "The documentation submitted does not support the rationale for 3 or more drug tests performed in a 6 month consecutive time period as this exceeds the recommended standard for the timeframe" and states, "Per Official Disability Guidelines Pain 2016 Criteria for Use of Urine Drug Testing... Any request for quantitative testing requires documentation that qualifies for necessity." Documentation requirements for the services provided are not established by ODG, rather, documentation requirements are established by 28 TAC §133.210 which describes the documentation required to be submitted with a medical bill. 28 TAC §133.210 does not require documentation to be submitted with the medical bill for the services in dispute. The respondent cites the ODG, Pain, 2016. The date of service in dispute is 08/14/2015. The ODG, Pain, August 2015, states, "*Recommended as a tool to monitor compliance with prescribed substances, identify use of undisclosed substances, and uncover diversion of prescribed substances.*" The carrier's denial reason is not supported.
2. The carrier in its response to this medical fee dispute, cites the lack of clarifying information and/or documentation as a reason for denial of payment. The process for a carrier's request of documentation not otherwise required by 28 TAC 133.210 is detailed in section (d) of that section as follows:

"Any request by the insurance carrier for additional documentation to process a medical bill shall:

 - (1) be in writing;
 - (2) be specific to the bill or the bill's related episode of care;
 - (3) describe with specificity the clinical and other information to be included in the response;
 - (4) be relevant and necessary for the resolution of the bill;
 - (5) be for information that is contained in or in the process of being incorporated into the injured employee's medical or billing record maintained by the health care provider;
 - (6) indicate the specific reason for which the insurance carrier is requesting the information; and
 - (7) include a copy of the medical bill for which the insurance carrier is requesting the additional documentation."

No documentation was found to support that the carrier made an appropriate request for additional documentation during the billing process with the specificity required by rule. The division concludes that carrier failed to meet the requirements of 28 TAC 133.210(d).

3. The insurance carrier in its response makes assertions that question the appropriateness and medical necessity of the services in dispute. Although these assertions are made based on language taken from the ODG, the issues raised indicate that the insurance carrier is denying payment based on

medical necessity. For example, the insurance carrier states “any request for quantitative testing requires documentation that qualifies necessity.” Health care provided in accordance with the OGD is presumed reasonable as specified in (c) of Rule §137.100. Section (e) of that same rule allows for the insurance carrier to retrospectively review reasonableness and medical necessity:

“An insurance carrier may retrospectively review, and if appropriate, deny payment for treatments and services not preauthorized under subsection (d) of this section when the insurance carrier asserts that health care provided within the Division treatment guidelines is not reasonably required. The assertion must be supported by documentation of evidence-based medicine that outweighs the presumption of reasonableness established by Labor Code §413.017.”

28 Texas Administrative Code Part 1, Chapter 19, Subchapter U sets out the requirements for utilization review of health care provided under Texas workers’ compensation insurance coverage. Applicable 28 TAC §19.2003 (b)(31) defines retrospective review as “A form of utilization review for health care services that have been provided to an injured employee.” No documentation was found to support that the insurance carrier retrospectively reviewed the reasonableness and medical necessity of the service in dispute pursuant to the minimal requirements of Chapter 19, subchapter U as required. The insurance carrier failed to follow the appropriate administrative process and remedy in order to address its assertions regarding appropriateness of care and medical necessity.

4. 28 TAC §134.203(b) states that “For coding, billing, reporting, and reimbursement of professional medical services, Texas workers' compensation system participants shall apply the following: (1) Medicare payment policies, including its coding; billing; correct coding initiative (CCI) edits; modifiers; bonus payments for health professional shortage areas (HPSAs) and physician scarcity areas (PSAs); and other payment policies in effect on the date a service is provided with any additions or exceptions in the rules.” 28 TAC §134.203(a) states that “‘Medicare payment policies’ when used in this section, shall mean reimbursement methodologies, models, values and weights including its coding, billing, and reporting payment policies as set forth in the Centers for Medicare and Medicaid Services (CMS) payment policies specific to Medicare.” The services in dispute are clinical laboratory services; therefore, Medicare policies for the clinical laboratory services must be met. The services in dispute are addressed in the CMS Clinical Laboratory Fee Schedule. The requestor billed the following AMA CPT codes/descriptions as follows:

- CPT Code - G0431 Drug screen, qualitative; multiple drug classes by high complexity test method (e.g., immunoassay, enzyme assay), per patient encounter

Review of the medical bill finds that current AMA CPT codes were billed, and that there are no CCI conflicts or Medicare billing exclusions that apply to the clinical laboratory services in dispute. The requestor met 28 TAC §134.203(b).

5. The services in dispute are eligible for payment. 28 TAC §134.203(e) states:

“The MAR for pathology and laboratory services not addressed in subsection (c)(1) of this section or in other Division rules shall be determined as follows:

- (1) 125 percent of the fee listed for the code in the Medicare Clinical Fee Schedule for the technical component of the service; and
- (2) 45 percent of the Division established MAR for the code derived in paragraph (1) of this subsection for the professional component of the service.”

CMS payment policy files identify those clinical laboratory codes which contain a professional component, and those which are considered technical only. The codes in dispute are not identified by CMS as having a possible professional component, for that reason, the MAR is determined solely pursuant to 28 TAC §134.203(e)(1). The maximum allowable reimbursement(MAR) for the services in dispute is 125% of the fee listed for the codes in the 2015 Clinical Diagnostic Laboratory Fee Schedule found on the Centers for Medicare and Medicaid Services website at <http://www.cms.gov>. The total MAR is calculated as follows:

Date of Service	Submitted Code	Submitted Charge	Units	MAR
August 14, 2015	G0431	\$1000.00	1	\$75.63 x 125% = \$94.54
	Total	\$1000.00		\$94.54

The total maximum allowable reimbursement for the services in dispute is \$1,000.00. The amount previously paid by the Carrier is \$0.00. The requestor is due \$94.54.

Conclusion

For the reasons stated above, the Division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is \$94.54.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Sections 413.031 and 413.019 (if applicable), the Division has determined that the requestor is entitled to additional reimbursement for the services involved in this dispute. The Division hereby ORDERS the respondent to remit to the requestor the amount of \$94.54 plus applicable accrued interest per 28 Texas Administrative Code §134.130 due within 30 days of receipt of this Order.
