FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §133.210 sets out the documents required to be filed with medical bills during the medical billing process.
3. 28 TAC §134.203 sets out the reimbursement guidelines for professional services.
4. The insurance carrier reduced payment for the disputed services with the following claim adjustment codes:

- P12 – Workers compensation jurisdictional fee schedule adjustment
- 16 – Claim/Service lacks information which is needed for adjudication
- 193 – Original payment decision is being maintained. This claim was processed properly the first time.

Issues

1. Did the requestor meet division documentation requirements?
2. Were Medicare policies met?
3. What is applicable rule pertaining to reimbursement?
4. Is reimbursement due?

Findings

1. The insurance carrier denied the disputed services as 16 – “Claim/service lacks information which is needed for adjudication.” The respondent stated, “The Provider failed to submit required documentation with the billing. The Medicare coding edits require that the doctor’s order for urine drug screening be submitted with the billing in order to confirm that the testing provided conforms to the doctor’s request.” 28 TAC §133.210 does not require documentation to be submitted with the medical bill for the services in dispute however, review of the submitted documentation finds a signed order from Anel Clark, N.P. requesting the urinary drug screen. The carrier’s position is not supported.
2. 28 Texas Administrative Code §134.203 (b) requires that For coding, billing, reporting, and reimbursement of professional medical services, Texas workers' compensation system participants shall apply the following:
 - (1) Medicare payment policies, including its coding; billing; correct coding initiatives (CCI) edits; modifiers; bonus payments for health professional shortage areas (HPSAs) and physician scarcity areas (PSAs); and other payment policies in effect on the date a service is provided with any additions or exceptions in the rules.

28 TAC §134.203(a) states that “‘Medicare payment policies’ when used in this section, shall mean reimbursement methodologies, models, values and weights including its coding, billing, and reporting payment policies as set forth in the Centers for Medicare and Medicaid Services (CMS) payment policies specific to Medicare.” The services in dispute are clinical laboratory services; therefore, Medicare policies for the clinical laboratory services must be met. The services in dispute are addressed in the CMS Clinical Laboratory Fee Schedule. The requestor billed the following AMA CPT codes/descriptions as follows:

- CPT Code – G6041 – Assay of urine alkaloids
- CPT Code – G6045 – Assay of dihydrocodeinone
- CPT Code – G6046 – Assay of dihydromorphinone
- CPT Code – G6056 – Assay of opiates

Review of the medical bill finds that current AMA CPT Codes were billed. The requestor met 28 TAC §134.203(b). The remaining services in dispute will be reviewed per applicable rules and fee guidelines.

3. 28 Texas Administrative Code §134.203 (e) states:

The MAR for pathology and laboratory services not addressed in subsection (c)(1) of this section or in other Division rules shall be determined as follows:

- (1) 125 percent of the fee listed for the code in the Medicare Clinical Fee Schedule for the technical component of the service; and,
- (2) 45 percent of the Division established MAR for the code derived in paragraph (1) of this subsection for the professional component of the service.

CMS payment policy files identify those clinical laboratory codes which contain a professional component, and those which are considered technical only. The codes in dispute are not identified by CMS as having a possible professional component, for that reason, the MAR is determined solely pursuant to 28 TAC

§134.203(e)(1). The maximum allowable reimbursement (MAR) for the services in dispute is 125% of the fee listed for the codes in the 2015 Clinical Diagnostic Laboratory Fee Schedule found on the Centers for Medicare and Medicaid Services website at <http://www.cms.gov>. The total MAR is calculated as follows:

G6041 – Allowable \$40.85 x 125% = \$51.06
G6045 – Allowable \$28.10 x 125% = \$35.13
G6046 – Allowable \$34.98 x 125% = \$43.73
G6056 – Allowable \$26.48 x 125% = \$33.10

The total allowable for the services in dispute is \$163.02.

4. The total recommended payment for the services in dispute is \$163.02. The requestor is seeking \$130.41. This amount is recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is \$130.41.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Sections 413.031 and 413.019 (if applicable), the Division has determined that the requestor is entitled to additional reimbursement for the services in dispute. The Division hereby ORDERS the respondent to remit to the requestor the amount of \$130.41 plus applicable accrued interest per 28 Texas Administrative Code §134.130 due within 30 days of receipt of this Order.
