FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.402, effective August 31, 2008, sets out the reimbursement guidelines for ambulatory surgical care services.
3. Texas Labor Code 413.011(b) provides for additions or exceptions to the Medicare policies.
4. The insurance carrier reduced payment for the disputed services with the following claim adjustment code:
 - B13-Previously paid. Payment for this claim/service may have provided in a previous payment.
 - W3-Additional payment made on appeal/reconsideration.
 - B12-No code description listed.
 - Z710-The charge for this procedure exceeds the fee schedule allowance.
 - 193-Original payment decision is being maintained. Upon review, it was determined that this claim was processed properly.

Issues

Is the requestor entitled to additional reimbursement for HCPCS code L8699?

Findings

On the disputed date of service, the requestor billed CPT codes 29888-RT, 29880-RT, and L8699 (X2) provided in an Ambulatory Surgical Care Center. The requestor is only seeking dispute resolution for code L8699.

HCPCS code L8699 is defined as "Prosthetic implant, not otherwise specified."

According to the submitted explanation of benefits, the respondent paid \$5,593.50 for HCPCS codes L8699 based upon "Z710-The charge for this procedure exceeds the fee schedule allowance."

28 Texas Administrative Code §134.402(f)(1)(B)(i)(ii) states,

The reimbursement calculation used for establishing the MAR shall be the Medicare ASC reimbursement amount determined by applying the most recently adopted and effective Medicare Payment System Policies for Services Furnished in Ambulatory Surgical Centers and Outpatient Prospective Payment System reimbursement formula and factors as published annually in the *Federal Register*. Reimbursement shall be based on the fully implemented payment amount as in ADDENDUM AA, ASC COVERED SURGICAL PROCEDURES FOR CY 2008, published in the November 27, 2007 publication of the *Federal Register*, or its successor. The following minimal modifications apply: (1) Reimbursement for non-device intensive procedures shall be: (B) if an ASC facility or surgical implant provider requests separate reimbursement for an implantable, reimbursement for the non-device intensive procedure shall be the sum of: (i) the lesser of the manufacturer's invoice amount or the net amount (exclusive of rebates and discounts) plus 10 percent or \$1,000 per billed item add-on, whichever is less, but not to exceed \$2,000 in add-on's per admission; and (ii) the Medicare ASC facility reimbursement amount multiplied by 153 percent.

The Division reviewed the submitted medical bill and finds that the requestor did request separate reimbursement for the implantables on box 19; therefore, the disputed services were applicable to the reimbursement methodology outlined in 28 Texas Administrative Code §134.402(f)(1)(B)(i)(ii).

28 Texas Administrative Code §134.402(d) states,

For coding, billing, and reporting, of facility services covered in this rule, Texas workers' compensation system participants shall apply the Medicare payment policies in effect on the date a service is provided with any additions or exceptions specified in this section.

Section 413.011(b) of the Texas Labor Code states,

In determining the appropriate fees, the commissioner shall also develop one or more conversion factors or other payment adjustment factors taking into account economic indicators in health care and the requirements of Subsection (d). The commissioner shall also provide for reasonable fees for the evaluation and management of care as required by Section 408.025(c) and commissioner rules. This section does not adopt the Medicare fee schedule, and the commissioner may not adopt conversion factors or other payment adjustment factors based solely on those factors as developed by the federal Centers for Medicare and Medicaid Services.

28 Texas Administrative Code §134.402's preamble states,

The Division is adopting minimal modifications to Medicare's reimbursement methodology to reflect use of separate reimbursement for surgically implanted devices in non-device intensive procedures to ensure injured employees have access to care, including surgery where surgically implanted devices are medically necessary.

According to *Addendum BB, Final ASC Covered Ancillary Services Integral to Covered Surgical Procedures for CY 2015 (Including Ancillary Services for Which Payment is Packaged)*, HCPCS Code L8699 has a payment indicator of "N1".

Addendum DD1, *Final ASC Payment Indicators for CY 2015*, defines payment indicator "N1" as "Packaged service/item; no separate payment made."

Section 413.011(b) of the Texas Labor Code, 28 Texas Administrative Code §134.402(d) and its preamble, provide for the exception to Medicare's policies and allow separate reimbursement for implantables in non-device intensive procedures.

Per the submitted invoice for Depuy Mitek the cost of the implants is \$5,085.00.

Per 28 Texas Administrative Code §134.402(f)(1)(B)(i) the total due for implantables is $\$5,085.00 \times 10\% = \$5,593.50$. The respondent paid \$5,593.50; therefore, additional reimbursement is not due.

Conclusion

For the reasons stated above, the Division finds that the requestor has not established that additional reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the disputed services.
