MEDICAL FEE DISPUTE RESOLUTION FINDINGS AND DECISION

GENERAL INFORMATION

Requestor Name

IGOR RAKOVCHIK, DO

Respondent Name

LM INSURANCE CORP

MFDR Tracking Number

M4-18-2896-01

Carrier's Austin Representative

Box Number 01

MFDR Date Received

APRIL 16, 2018

REQUESTOR'S POSITION SUMMARY

Requestor's Position Summary: "The carrier has not paid this claim in accordance and compliance with TDI-DWC Rule 133 and 134."

Amount in Dispute: \$153.56

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: "Modifier 59 should not be appended to an E/M service... Interpretation of the EMG/NCV is part of the professional component of those codes and should not be counted as a required key component of the E&M. CPT Code 99202-59 was billed in combination with codes 95911 and 95886 which have 'XXX' and 'ZZZ' global days. Medicare indicates that E&M should not be billed with 'XXX' procedures since the procedure components include the pre-procedure, intra-procedure, and post-procedure work usually performed each time the procedure is complete. Codes with 'ZZZ' global days indicates the services are included in the global period of another related service... HCPCS Codes A4556...and A4215...were denied as supplies are not separately payable per Medicare guidelines."

Response Submitted By: Liberty Mutual Insurance Co.

SUMMARY OF FINDINGS

Table with 4 columns: Dates of Service, Disputed Services, Amount In Dispute, Amount Due. It lists five rows of services for December 5, 2017, including CPT codes 99202-59, 95886(X2), 95911 and HCPCS codes A4556 and A4215.

TOTAL		\$153.21	\$0.00
-------	--	----------	--------

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.203, effective March 1, 2008, sets the reimbursement guidelines for the disputed service.
3. The services in dispute were reduced / denied by the respondent with the following reason code:
 - 97-Payment is included in the allowance for another service/procedure.
 - X212-This procedure is included in another procedure performed on this date.
 - 234-This procedure is not paid separately.
 - B291-This is a bundled or non covered procedure based on Medicare guidelines; no separate payment allowed.
 - MSCP-In accordance with the CMS physician fee schedule rule for status code 'P', this service is not separately reimbursed when billed with other payable services.
 - 193, W3-This item has been reviewed on a previously submitted bill, or is currently in process. Notification of this decision has been previously provided or will be issued upon completion of our review.

Issues

1. What is the applicable fee guideline for professional services?
2. Was the office visit billed in accordance with fee guideline? Is the requestor entitled to reimbursement?
3. Is the allowance of HCPCS code A4556 included in the allowance of another service performed on this date?
4. Is the allowance of HCPCS code A4215 included in the allowance of another service performed on this date?

Findings

1. The fee guidelines for disputed services are found in 28 Texas Administrative Code §134.203.
2. 28 Texas Administrative Code §134.203(a)(5) states "Medicare payment policies" when used in this section, shall mean reimbursement methodologies, models, and values or weights including its coding, billing, and reporting payment policies as set forth in the Centers for Medicare and Medicaid Services (CMS) payment policies specific to Medicare."

CPT code 99202 is described as "Office or other outpatient visit for the evaluation and management of a new patient, which requires these 3 key components: An expanded problem focused history; An expanded problem focused examination; Straightforward medical decision making. Counseling and/or coordination of care with other physicians, other qualified health care professionals, or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family's needs. Usually, the presenting problem(s) are of low to moderate severity. Typically, 20 minutes are spent face-to-face with the patient and/or family."

The requestor appended modifier "59-Distinct Procedural Service" to code 99202.

Modifier "59" is defined as "Under certain circumstances, it may be necessary to indicate that a procedure or service was distinct or independent from other non-E/M services performed on the same day. Modifier 59 is used to identify procedures/services, other than E/M services, that are not normally reported together, but are appropriate under the circumstances. Documentation must support a different session, different procedure or surgery, different site or organ system, separate incision/excision, separate lesion, or separate injury (or area of injury in extensive injuries) not ordinarily encountered or performed on the same day by the same individual. However, when another already established modifier is appropriate it should be used rather

than modifier 59. Only if no more descriptive modifier is available, and the use of modifier 59 best explains the circumstances, should modifier 59 be used.” Based upon the definition of modifier 59, it is inappropriate to use this code with an E/M services.

In addition, the submitted report does not support a “different session, different procedure or surgery, different site or organ system, separate incision/excision, separate lesion, or separate injury (or area of injury in extensive injuries) not ordinarily encountered or performed on the same day by the same individual.” The Division finds that the requestor has not supported the use of modifier “59.”

On the disputed date of service, the requestor billed for CPT code 99202-59, 95911, and 95886. Per 28 Texas Administrative Code §134.203(a)(5), the Division referred to Medicare’s coding and billing policies. Per Medicare fee schedule, CPT code 95886 has a global surgery period of “ZZZ” and code 95911 has “XXX.”

The National Correct Coding Initiative Policy Manual, effective January 1, 2017, Chapter I, General Correct Coding Policies, section D, states:

All procedures on the Medicare Physician Fee Schedule are assigned a Global period of 000, 010, 090, XXX, YYY, ZZZ, or MMM. The global concept does not apply to XXX procedures. The global period for YYY procedures is defined by the Carrier (A/B MAC processing practitioner service claims). All procedures with a global period of ZZZ are related to another procedure, and the applicable global period for the ZZZ code is determined by the related procedure... Procedures with a global surgery indicator of “XXX” are not covered by these rules. Many of these “XXX” procedures are performed by physicians and have inherent pre-procedure, intra-procedure, and post-procedure work usually performed each time the procedure is completed. This work should never be reported as a separate E&M code. Other “XXX” procedures are not usually performed by a physician and have no physician work relative value units associated with them. A physician should never report a separate E&M code with these procedures for the supervision of others performing the procedure or for the interpretation of the procedure. With most “XXX” procedures, the physician may, however, perform a significant and separately identifiable E&M service on the same date of service which may be reported by appending modifier 25 to the E&M code. This E&M service may be related to the same diagnosis necessitating performance of the “XXX” procedure but cannot include any work inherent in the “XXX” procedure, supervision of others performing the “XXX” procedure, or time for interpreting the result of the “XXX” procedure. Appending modifier 25 to a significant, separately identifiable E&M service when performed on the same date of service as an “XXX” procedure is correct coding.

Per Medicare policy, “This E&M service may be related to the same diagnosis necessitating performance of the “XXX” procedure but cannot include any work inherent in the “XXX” procedure, supervision of others performing the “XXX” procedure, or time for interpreting the result of the “XXX” procedure.” The Division finds that the requestor’s E&M report did not meet all three required key components for billing CPT code 99202. In addition, the requestor did not code for the service in accordance with Medicare policies. As a result, reimbursement is not recommended.

3. The requestor is seeking medical dispute resolution for \$16.90 for HCPCS code A4556. HCPCS code A4556 is defined as “Electrodes (e.g., apnea monitor), per pair.” The respondent denied reimbursement based upon reason code “234-This procedure is not paid separately,” and “MSCP-In accordance with the CMS physician fee schedule rule for status code ‘P’, this service is not separately reimbursed when billed with other payable services.”

Per Medicare guidelines, Transmittal B-03-020, effective February 28, 2003 if Durable Medical Equipment Prosthetics Orthotics and Supplies (DMEPOS) HCPCS codes are incidental to the physician service, it is not separately payable. A review of the submitted documentation does not support a separate service to support billing HCPCS code A4556. As a result, reimbursement is not recommended.

4. The requestor is seeking medical dispute resolution for \$15.00 for HCPCS code A4215. HCPCS code A4215 is defined as “Needle, sterile, any size, each.” The respondent denied reimbursement based upon reason code “B291-This is a bundled or non covered procedure based on Medicare guidelines; no separate payment allowed.”

Per Medicare guidelines, Transmittal B-03-020, effective February 28, 2003 if Durable Medical Equipment

Prosthetics Orthotics and Supplies (DMEPOS) HCPCS codes are incidental to the physician service, it is not separately payable. A review of the submitted documentation does not support a separate service to support billing HCPCS code A4215 in conjunction with CPT codes 95886 and 95911. As a result, reimbursement is not recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has not established that reimbursement is due.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the disputed services.
