Issues

1. What is the recommended payment for the services in dispute?
2. Is the requestor entitled to additional reimbursement?

Findings

1. This dispute regards outpatient facility services with payment subject to 28 Texas Administrative Code §134.403, requiring the maximum allowable reimbursement (MAR) to be the Medicare facility specific amount applying Medicare Outpatient Prospective Payment System (OPPS) formulas and factors, as published annually in the Federal Register, with modifications set out in the rules. Rule §134.403(f)(1) requires the Medicare facility specific amount and any outlier payment be multiplied by 200 percent for the disputed emergency visit services.

   Medicare assigns an Ambulatory Payment Classification (APC) to OPPS services based on billed procedure codes and supporting documentation. The APC determines the payment rate. Reimbursement for ancillary items and services is packaged with the APC payment. CMS publishes quarterly APC rate updates, available at www.cms.gov.

   Reimbursement for the disputed services is calculated as follows:

   - Procedure codes J7030, J2270 and J2405 have status indicator N, denoting packaged codes integral to the total service package with no separate payment; reimbursement is included with payment for the primary services.
   - Procedure codes 36415, 80053, 82962 and 85025 have status indicator Q4, denoting packaged labs; reimbursement is included with payment for the primary services.
   - Procedure code 96361 has status indicator S, denoting significant outpatient procedures paid by APC, not subject to reduction. This code is assigned APC 5691. The OPPS Addendum A rate is $34.78, multiplied by 60% for an unadjusted labor amount of $20.87, in turn multiplied by the facility wage index of 0.9794 for an adjusted labor amount of $20.44. The non-labor portion is 40% of the APC rate, or $13.91. The sum of the labor and non-labor portions is $34.35 multiplied by 3 units is $103.05. The Medicare facility specific amount of $103.05 is multiplied by 200% for a MAR of $206.10.
   - Procedure code 96374 has status indicator S, denoting significant outpatient procedures paid by APC, not subject to reduction. This code is assigned APC 5693. The OPPS Addendum A rate is $179.77, multiplied by 60% for an unadjusted labor amount of $107.86, in turn multiplied by the facility wage index of 0.9794 for an adjusted labor amount of $105.64. The non-labor portion is 40% of the APC rate, or $71.91. The sum of the labor and non-labor portions is $177.55. The Medicare facility specific amount of $177.55 is multiplied by 200% for a MAR of $355.10.
   - Procedure code 96375 has status indicator S, denoting significant outpatient procedures paid by APC, not subject to reduction. This code is assigned APC 5691. The OPPS Addendum A rate is $34.78, multiplied by 60% for an unadjusted labor amount of $20.87, in turn multiplied by the facility wage index of 0.9794 for an adjusted labor amount of $20.44. The non-labor portion is 40% of the APC rate, or $13.91. The sum of the labor and non-labor portions is $34.35. The Medicare facility specific amount of $34.35 is multiplied by 200% for a MAR of $68.70.
   - Procedure code 99284 has status indicator J2, denoting outpatient visits. This code is assigned APC 5024. The OPPS Addendum A rate is $332.41, multiplied by 60% for an unadjusted labor amount of $199.45, in turn multiplied by the facility wage index of 0.9794 for an adjusted labor amount of $195.34. The non-labor portion is 40% of the APC rate, or $132.96. The sum of the labor and non-labor portions is $328.30. The Medicare facility specific amount of $328.30 is multiplied by 200% for a MAR of $656.60.
   - Procedure codes 72125, 70450, and 70486 have status indicator Q3, denoting packaged codes paid through a composite APC. Codes assigned to composites are major components of a single episode of care; the hospital receives one payment for any combination of designated procedures. These services are assigned composite APC 8005 for computed tomography (CT) services. The OPPS Addendum A rate is $273.09, multiplied by 60% for an unadjusted labor amount of $163.85, in turn multiplied by the facility wage index of 0.9794 for an adjusted labor amount of $160.47. The non-labor portion is 40% of the APC rate, or $109.24. The sum of the labor and non-labor portions is $269.71. The cost of services does not exceed the threshold for outlier payment. The Medicare facility specific amount of $269.71 is multiplied by 200% for a MAR of $539.42.

2. The total recommended reimbursement for the disputed services is $1,825.92. The insurance carrier paid $1,705.81. The requestor is seeking additional reimbursement of $116.43. This amount is recommended.

Conclusion

In resolving disputes regarding the amount of payment due for health care determined to be medically necessary and appropriate for treatment of a compensable injury, the role of the division is to adjudicate the payment, given the relevant statutory provisions and division rules.

The division would like to emphasize that the findings and decision in this dispute are based on the available evidence presented by the requestor and respondent at the time of review. Even though not all the evidence was discussed, it was considered.

For the reasons stated above, the division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is $116.43.

ORDER

Based on the submitted information, pursuant to Texas Labor Code Section 413.031 and 413.019 (if applicable), the division has determined the requestor is entitled to additional reimbursement for the disputed services. The division hereby ORDERS the respondent to remit to the requestor $116.43, plus applicable accrued interest per 28 Texas Administrative Code §134.130, due within 30 days of receipt of this order.
