SUMMARY OF FINDINGS

Dates of Service	Disputed Services	Amount In Dispute	Amount Due
January 30, 2018	Pharmacy Services - Compounds	\$702.68	\$702.68

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

- 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
- 28 Texas Administrative Code §134.503 sets out the fee guidelines for pharmaceutical services.
- The insurance carrier reduced payment for the disputed services with the following claim adjustment codes:
 - 197 – Precertification/authorization/notification absent

Issues

1. Is the insurance carrier’s reason for denial of payment supported?
2. What rule is applicable to reimbursement?

Findings

1. The requestor is seeking reimbursement of \$702.68 for a compound dispensed January 30, 2018. The insurance carrier denied the disputed compound with claim adjustment reason code 197 – “Precertification/authorization/notification absent.”

For the dates of service in dispute the applicable rule is 28 Texas Administrative Code §134.530(b)(2) which states that preauthorization is **only** required for:

- drugs identified with a status of “N” in the current edition of the *ODG Treatment in Workers’ Comp (ODG) / Appendix A, ODG Workers’ Compensation Drug Formulary*, and any updates;
- any compound that contains a drug identified with a status of "N" in the current edition of the *ODG Treatment in Workers’ Comp (ODG) / Appendix A, ODG Workers’ Compensation Drug Formulary*, and any updates; and
- any investigational or experimental drug for which there is early, developing scientific or clinical evidence demonstrating the potential efficacy of the treatment, but which is not yet broadly accepted as the prevailing standard of care as defined in Labor Code §413.014(a).

The division finds that the compound rendered on the date of service in question does not include a drug identified with a status of “N” in the current edition of the *ODG, Appendix A*. Therefore, the division concludes that the compound in question did not require preauthorization and the carrier’s denial of payment for this reason is not supported. Therefore, the disputed compound will be reviewed for reimbursement.

2. 28 Texas Administrative Code §134.503 applies to the compounds in dispute and states, in pertinent part:

(c) The insurance carrier shall reimburse the health care provider or pharmacy processing agent for prescription drugs the lesser of:

(1) the fee established by the following formulas based on the average wholesale price (AWP) as reported by a nationally recognized pharmaceutical price guide or other publication of pharmaceutical pricing data in effect on the day the prescription drug is dispensed:

(A) Generic drugs: $((AWP \text{ per unit}) \times (\text{number of units}) \times 1.25) + \4.00 dispensing fee per prescription = reimbursement amount;

(B) Brand name drugs: $((AWP \text{ per unit}) \times (\text{number of units}) \times 1.09) + \4.00 dispensing fee per prescription = reimbursement amount;

(C) When compounding, a single compounding fee of \$15 per prescription shall be added to the calculated total for either paragraph (1)(A) or (B) of this subsection; or

Compounding Fee	NA	\$15.00	1	N/A	\$15.00	\$15.00
					\$702.68	\$702.68

The total reimbursement is \$702.68. This amount is recommended.

Conclusion
