FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

- 1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.503 sets out the fee guidelines for pharmaceutical services.
3. 28 Texas Administrative Code §134.530 sets out prior authorization requirement for pharmacy services.
4. The insurance carrier reduced payment for the disputed services with the following claim adjustment codes:
• 197 - "Precertification/authorization/notification absent"

Issues

1. Did the insurance carrier raise a new issue?
2. Is the insurance carrier’s reason for denial of payment supported?
3. Is the requestor entitled to reimbursement for the compound in question?

Findings

1. The respondent states in their position, “The Requestor did not request and receive preauthorization for this investigational or experimental compound formulation.”
2. The requestor is seeking reimbursement of \$555.68 for a compound dispensed November 9, 2017. The carrier denied the disputed compound based on lack of pre-authorization.

28 Texas Administrative Code §134.530(b)(1)(A) which states that preauthorization is **only** required for:

- drugs identified with a status of “N” in the current edition of the *ODG Treatment in Workers' Comp (ODG) / Appendix A, ODG Workers' Compensation Drug Formulary*, and any updates;
- any compound that contains a drug identified with a status of "N" in the current edition of the *ODG Treatment in Workers' Comp (ODG) / Appendix A, ODG Workers' Compensation Drug Formulary*, and any updates; and
- any investigational or experimental drug for which there is early, developing scientific or clinical evidence demonstrating the potential efficacy of the treatment, but which is not yet broadly accepted as the prevailing standard of care as defined in Labor Code §413.014(a).

The division finds that the compound rendered on the date of service in question does not include a drug identified with a status of “N” in the current edition of the ODG, *Appendix A*. Therefore, the division concludes that the compound in question did not require preauthorization and the carrier’s denial of payment for this reason is not supported. Therefore, the disputed compound will be reviewed for reimbursement.

3. 28 TAC §134.503 (c) applies to the compounds in dispute and states, in pertinent part:
 - (c) The insurance carrier shall reimburse the health care provider or pharmacy processing agent for prescription drugs the lesser of:
 - (1) the fee established by the following formulas based on the average wholesale price (AWP) as reported by a nationally recognized pharmaceutical price guide or other publication of pharmaceutical pricing data in effect on the day the prescription drug is dispensed:
 - (A) Generic drugs: ((AWP per unit) x (number of units) x 1.25) + \$4.00 dispensing fee per prescription = reimbursement amount;
 - (B) Brand name drugs: ((AWP per unit) x (number of units) x 1.09) + \$4.00 dispensing fee per prescription = reimbursement amount;
 - (C) When compounding, a single compounding fee of \$15 per prescription shall be added to the calculated total for either paragraph (1)(A) or (B) of this subsection; or
