FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

- 28 Texas Administrative Code §133.240 sets out the general medical provisions for medical payments and denials.
- 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
- 28 Texas Administrative Code §134.502 sets out the procedures for pharmaceutical benefits.
- 28 Texas Administrative Code §134.503 sets out the fee guidelines for pharmaceutical services.
- 28 Texas Administrative Code §134.530 sets out the closed formulary requirements for claims not subject to

certified networks.

6. 28 Texas Administrative Code §19.2009 sets out the notice of determinations made in utilization review.
7. 28 Texas Administrative Code §19.2010 sets out the requirements prior to issuing adverse determination.
8. The insurance carrier reduced payment for the disputed services with the following claim adjustment codes:
 - 216 – Based on the findings of a review organization
 - 219 – Based on extent of injury
 - 96 – Non-covered charge(s)
 - P12 – Workers compensation jurisdictional fee schedule adjustment

Issues

1. Is TX Public School WC Project's reason for denial of payment supported?
2. Is Memorial Compounding Pharmacy (Memorial) entitled to reimbursement for the compound in question?

Findings

1. Memorial is seeking reimbursement for drug(s) dispensed on December 28, 2017.

TX Public School WC Project denied the disputed drugs with claim adjustment reason code 216 – “Based on the findings of a review organization”, 219 – “Based on extent of injury”, 96 – “Non-covered charge(s)” and P12 – “Workers compensation jurisdictional fee schedule adjustment.”

28 Texas Administrative Code §133.305(b) requires that “If a dispute regarding...medical necessity exists for the same service for which there is a medical fee dispute, the disputes regarding...medical necessity shall be resolved prior to the submission of a medical fee dispute for the same services in accordance with Labor Code §413.031 and §408.021.”

28 Texas Administrative Code §133.240(q) states that the insurance carrier is required to comply with 28 Texas Administrative Codes §19.2009 and 19.2010 when denying payment based on an adverse determination.

Review of the submitted documentation finds that Creative Risk Funding submitted a document dated September 15, 2017, as support for a utilization review of the disputed compound. The division concludes that the submitted documentation does not support that TX Public School WC Project performed a utilization review as this document does not contain the elements of a utilization review required by 28 Texas Administrative Code §19.2009.

TX Public School WC Project's denial reason is therefore not sufficiently supported. The disputed drug(s) will consequently be reviewed per applicable guidelines.

2. 28 Texas Administrative Code §134.503 applies to the compounds in dispute and states, in pertinent part:
 - (c) The insurance carrier shall reimburse the health care provider or pharmacy processing agent for prescription drugs the lesser of:
 - (1) the fee established by the following formulas based on the average wholesale price (AWP) as reported by a nationally recognized pharmaceutical price guide or other publication of pharmaceutical pricing data in effect on the day the prescription drug is dispensed:
 - (A) Generic drugs: $((AWP \text{ per unit}) \times (\text{number of units}) \times 1.25) + \4.00 dispensing fee per prescription = reimbursement amount;
 - (B) Brand name drugs: $((AWP \text{ per unit}) \times (\text{number of units}) \times 1.09) + \4.00 dispensing fee per prescription = reimbursement amount;
 - (C) When compounding, a single compounding fee of \$15 per prescription shall be added to the calculated total for either paragraph (1)(A) or (B) of this subsection; or
 - (2) notwithstanding §133.20(e)(1) of this title (relating to Medical Bill Submission by Health Care Provider), the amount billed to the insurance carrier by the:
 - (A) health care provider; or

(B) pharmacy processing agent only if the health care provider has not previously billed the insurance carrier for the prescription drug and the pharmacy processing agent is billing on behalf of the health care provider.

The compound in dispute was billed by listing each drug included in the compound and calculating the charge for each drug separately as required by 28 Texas Administrative Code §134.502(d)(2). Each ingredient is listed below with its corresponding reimbursement amount as applicable.

Drug	NDC	Generic(G) /Brand(B)	Price /Unit	Units Billed	AWP Formula	Billed Amt	Lesser of AWP and Billed
Lenzapatch	45861001705	B	\$42.00	5	\$228.90	\$267.50	\$228.90
Cyclobenzaprine HCL	65162054150	G	\$1.09	60	\$81.90	\$123.02	\$81.90
						Total	\$310.80

The total reimbursement is therefore \$310.80. This amount is recommended.

Conclusion

The outcome of this medical fee dispute relied upon the evidence presented by the requestor and the respondent at the time of adjudication. Though all the evidence may not have been discussed, it was considered. For the reasons stated above, the Division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is \$310.80.

ORDER

Based on the submitted information, pursuant to Texas Labor Code Section 413.031 and 413.019 (if applicable), the division has determined the requestor is entitled to additional reimbursement for the disputed services. The division hereby ORDERS the respondent to remit to the requestor \$310.80, plus applicable accrued interest per 28 Texas Administrative Code §134.130, due within 30 days of receipt of this order.
