March 7, 2018	CPT Code 90791 (X2)	\$213.80	\$0.00
	CPT Code 96101 (X14)	\$0.00	\$0.00
TOTAL		\$213.80	\$0.00

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

- 28 Texas Administrative Code §133.307 effective May 31, 2012, sets out the procedures for resolving medical fee disputes.
- 28 Texas Administrative Code §134.203, effective March 1, 2008, sets out the fee guidelines for reimbursement of professional medical services provided in the Texas workers' compensation system.

3. The services in dispute were reduced/denied by the respondent with the following reason codes:

- P12-Workers compensation jurisdictional fee schedule adjustment.
- W3-Appeal/Reconsideration.

Issues

1. What is the applicable fee guideline for professional services?
2. Does the documentation support billing CPT code 90791 (X2)? Is the requestor entitled to additional reimbursement?

Findings

1. The fee guidelines for disputed services are found in 28 Texas Administrative Code §134.203.
2. Based upon the submitted documentation the requestor billed \$431.02 and was paid \$217.22 for code 90791 (X2) based upon "P12-Workers compensation jurisdictional fee schedule adjustment."

28 Texas Administrative Code §134.203(a)(5) states "Medicare payment policies" when used in this section, shall mean reimbursement methodologies, models, and values or weights including its coding, billing, and reporting payment policies as set forth in the Centers for Medicare and Medicaid Services (CMS) payment policies specific to Medicare."

28 Texas Administrative Code §134.203 (b)(1) states "For coding, billing, reporting, and reimbursement of professional medical services, Texas workers' compensation system participants shall apply the following: (1) Medicare payment policies, including its coding; billing; correct coding initiatives (CCI) edits; modifiers; bonus payments for health professional shortage areas (HPSAs) and physician scarcity areas (PSAs); and other payment policies in effect on the date a service is provided with any additions or exceptions in the rules."

On the disputed date of service the requestor billed codes 90791 and 96101.

The requestor contends that reimbursement is due because "The carrier has not paid this claim in accordance with TDI-DWC Rule 133 and 134."

CPT code 90791 is defined as "Psychiatric diagnostic evaluation."

A review of the submitted billing and medical records finds that the requestor billed for two units of code 90791. CPT code 90791 is not defined as a timed procedure. The 2018 CPT manual indicates the code may be reported more than one per patient when a separate evaluation with an informant is performed. A review of the submitted documentation supports evaluation of the claimant; therefore, based on the code descriptor and the submitted report, one unit is recommended for reimbursement.

Per 28 Texas Administrative Code §134.203(c)(1)(2), "To determine the MAR for professional services, system participants shall apply the Medicare payment policies with minimal modifications.

(1) For service categories of Evaluation & Management, General Medicine, Physical Medicine and Rehabilitation, Radiology, Pathology, Anesthesia, and Surgery when performed in an office setting, the established conversion factor to be applied is \$52.83. For Surgery when performed in a facility setting, the established conversion factor to be applied is \$66.32.

(2) The conversion factors listed in paragraph (1) of this subsection shall be the conversion factors for calendar year 2008. Subsequent year's conversion factors shall be determined by applying the annual percentage adjustment of the Medicare Economic Index (MEI) to the previous year's conversion factors, and shall be effective January 1st of the new calendar year. The following hypothetical example illustrates this annual adjustment activity if the Division had been using this MEI annual percentage adjustment: The 2006 Division conversion factor of \$50.83 (with the exception of surgery) would have been multiplied by the 2007 MEI annual percentage increase of 2.1 percent, resulting in the \$51.90 (with the exception of surgery) Division conversion factor in 2007."

To determine the MAR the following formula is used: (DWC Conversion Factor/Medicare Conversion Factor) X Participating Amount = Maximum Allowable Reimbursement (MAR).

The 2018 DWC conversion factor for this service 58.31.

The Medicare Conversion Factor is 35.9996.

Review of Box 32 on the CMS-1500 the services were rendered in zip code 78752, which is located in San Antonio, Texas; therefore the Medicare carrier locality is "Rest of Texas".

The Medicare participating amount for code 90791 is \$134.11.

Using the above formula, the Division finds the MAR is \$217.22. The respondent paid \$217.22. As a result, additional reimbursement is not recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has not established that reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the disputed services.
