Issues

1. Did the insurance carrier raise a new issue?
2. What rule is applicable to reimbursement?

Findings

1. The insurance carrier states in their position statement, "The medical necessity is not established."
28 TAC 133.307 (d)(2) (F) states,

The response shall address only those denial reasons presented to the requestor prior to the date the request for MFDR was filed with the division and the other party. Any new denial reasons or defenses raised shall not be considered in the review. If the response includes unresolved issues of compensability, extent of injury, liability, or medical necessity, the request for MFDR will be dismissed in accordance with subsection (f)(3)(B) or (C) of this section

Review of the submitted documentation found insufficient evidence to support the carrier notified the health care provider prior to the request to MFDR on September 17, 2018 of the adverse determination. Based on DWC rule listed above, this defense will not be considered in this review. The service in dispute will be reviewed per applicable fee guidelines.

 - (A) Generic drugs: $((\text{AWP per unit}) \times (\text{number of units}) \times 1.25) + \4.00 dispensing fee per prescription = reimbursement amount;
 - (B) Brand name drugs: $((\text{AWP per unit}) \times (\text{number of units}) \times 1.09) + \4.00 dispensing fee per prescription = reimbursement amount;
 - (C) When compounding, a single compounding fee of \$15 per prescription shall be added to the calculated total for either paragraph (1)(A) or (B) of this subsection; or
