#### FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

#### **Background**

- 28 Texas Administrative Code §133.240 sets out the general medical provisions for medical payments and denials.
- 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
- 28 Texas Administrative Code §134.502 sets out the procedures for pharmaceutical benefits.
- 28 Texas Administrative Code §134.503 sets out the fee guidelines for pharmaceutical services.
- 28 Texas Administrative Code §134.530 sets out the closed formulary requirements for claims not subject to certified networks.

6. 28 Texas Administrative Code §19.2009 sets out the notice of determinations made in utilization review.
7. 28 Texas Administrative Code §19.2010 sets out the requirements prior to issuing adverse determination.
8. The insurance carrier reduced payment for the disputed services with the following claim adjustment codes:
  - W9 – Unnecessary treatment with peer review

**Issues**

1. Is Indemnity Insurance Co of north America’s reason for denial of payment supported?
2. Did Indemnity Insurance Co of North America raise a new defense pursuant to 28 Texas Administrative Code §133.307?
3. Is Memorial Compounding Pharmacy (Memorial) entitled to reimbursement for the compound in question?

**Findings**

1. Memorial is seeking reimbursement for compound(s) dispensed on April 28, 2018.

Indemnity Insurance Co of North America denied the disputed drugs with claim adjustment reason code W9 – “Unnecessary treatment with peer review”

28 Texas Administrative Code §133.305(b) requires that “If a dispute regarding...medical necessity exists for the same service for which there is a medical fee dispute, the disputes regarding...medical necessity shall be resolved prior to the submission of a medical fee dispute for the same services in accordance with Labor Code §413.031 and §408.021.”

28 Texas Administrative Code §133.240(q) states that the insurance carrier is required to comply with 28 Texas Administrative Codes §19.2009 and 19.2010 when denying payment based on an adverse determination.

Review of the submitted documentation finds that ESIS submitted a document dated January 11, 2018, as support for a utilization review of the disputed compound. The division concludes that the submitted documentation does not support that [insurance carrier] performed a utilization review as this document does not contain the elements of a utilization review required by 28 Texas Administrative Code §19.2009.

Indemnity Insurance Co of North America’s denial reason is therefore not sufficiently supported. The disputed compound (s) will consequently be reviewed per applicable guidelines.

2. In its position statement, ESIS argued on behalf of Indemnity Insurance Co of North America, “The bills for dates of service 4/28/18 & 2/15/18 were denied for “charge unrelated to the compensable injury”

28 Texas Administrative Code §133.307(d)(2)(F) states, in relevant part, “The response shall address only those denial reasons presented to the requestor prior to the date the request for MFDR was filed with the division and the other party. Any new denial reasons or defenses raised shall not be considered in the review.”

Review of the submitted documentation finds that Indemnity Insurance Co of North America failed to present a extent of injury denial to Memorial in accordance with 28 Texas Administrative Code §133.240 prior to the date the request for medical fee dispute resolution (MFDR) was filed. The division concludes that this defense presented in ESIS’s position statement shall not be considered for review because this assertion constitutes a new defense pursuant to 28 Texas Administrative Code §133.307(d)(2)(F).

3. 28 Texas Administrative Code §134.503 applies to the compounds in dispute and states, in pertinent part:
  - (c) The insurance carrier shall reimburse the health care provider or pharmacy processing agent for prescription drugs the lesser of:
    - (1) the fee established by the following formulas based on the average wholesale price (AWP) as reported by a nationally recognized pharmaceutical price guide or other publication of pharmaceutical pricing data in effect on the day the prescription drug is dispensed:
      - (A) Generic drugs: ((AWP per unit) x (number of units) x 1.25) + \$4.00 dispensing fee per prescription = reimbursement amount;

- (B) Brand name drugs: ((AWP per unit) x (number of units) x 1.09) + \$4.00 dispensing fee per prescription = reimbursement amount;
- (C) When compounding, a single compounding fee of \$15 per prescription shall be added to the calculated total for either paragraph (1)(A) or (B) of this subsection; or
- (2) notwithstanding §133.20(e)(1) of this title (relating to Medical Bill Submission by Health Care Provider), the amount billed to the insurance carrier by the:
  - (A) health care provider; or
  - (B) pharmacy processing agent only if the health care provider has not previously billed the insurance carrier for the prescription drug and the pharmacy processing agent is billing on behalf of the health care provider.

The compound in dispute was billed by listing each drug included in the compound and calculating the charge for each drug separately as required by 28 Texas Administrative Code §134.502(d)(2). Each ingredient is listed below with its corresponding reimbursement amount as applicable.

						<b>Total</b>	<b>\$726.62</b>

The total reimbursement is therefore \$726.62. This amount is recommended.

**Conclusion**

For the reasons stated above, the Division finds that the requestor has established that reimbursement is due. As a result, the amount ordered is \$726.62.
