FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

- 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
- 28 Texas Administrative Code §134.403 sets out the reimbursement guidelines for outpatient hospital services.
- The insurance carrier reduced payment for the disputed services with the following claim adjustment codes:
 - 802 – Charge for this procedure exceeds the OPPI schedule allowance
 - 4097 – Paid per fee schedule; charge adjusted because statute dictates allowance is greater than provider's charge

Issues

1. What is the applicable rule for determining reimbursement for the disputed services?
2. Is the requestor entitled to additional reimbursement?

Findings

1. The requestor is seeking reimbursement in the amount of \$11,043.21 for outpatient hospital services rendered on May 31, 2018. The insurance carrier reduced disputed services with claim adjustment reason code 802 – Charge for this procedure exceeds the OPPTS schedule allowance.”

28 TAC §134.403, (f) states,

The reimbursement calculation used for establishing the MAR shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the *Federal Register*. The following minimal modifications shall be applied.

- (1) The sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by:
 - (A) 200 percent; unless
 - (B) a facility or surgical implant provider requests separate reimbursement in accordance with subsection (g) of this section, in which case the facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 130 percent.

Review of the medical bill finds separate payment for implants was not requested. Medicare’s Outpatient Prospective Payment System (OPPS) assigns an Ambulatory Payment Classification (APC) and Status Indicator for billed services based on procedure codes and supporting documentation. The APC determines the payment rate. The status indicator identifies whether the service described by the HCPCS code is paid under the OPPTS and if so, whether payment is made separately or packaged. The Centers for Medicare and Medicaid Services (CMS) publishes quarterly lists of APC rates and Status Indicators in the OPPTS final rules, available from www.cms.gov.

The maximum allowable reimbursement per the above is calculated as follows:

- Procedure code 29827 has status indicator J1, for procedures paid at a comprehensive rate. This code is assigned APC 5114. The OPPTS Addendum A rate is \$5,606.42, multiplied by 60% for an unadjusted labor amount of \$3,363.85, in turn multiplied by the facility wage index of 0.9756 for an adjusted labor amount of \$3,281.77. The non-labor portion is 40% of the APC rate, or \$2,242.57. The sum of the labor and non-labor portions is \$5,524.34. The Medicare facility specific amount of \$5,524.34 multiplied by 200% for a MAR of \$11,048.68.
2. The total recommended reimbursement for the disputed services is 11,048.68. The insurance carrier paid 10,967.96. The requestor is seeking \$75.25. This amount is recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is \$75.25.

ORDER

Based on the submitted information, pursuant to Texas Labor Code Section 413.031 and 413.019 (if applicable), the division has determined the requestor is entitled to additional reimbursement for the disputed services. The division hereby ORDERS the respondent to remit to the requestor \$75.25, plus applicable accrued interest per 28 Texas Administrative Code §134.130, due within 30 days of receipt of this order.
