### FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

#### **Background**

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.502 sets out the procedures for pharmaceutical benefits.
3. 28 Texas Administrative Code §134.503 sets out the fee guidelines for pharmaceutical services.
4. The insurance carrier reduced payment for the disputed services with the following claim adjustment codes:
  - 85 – claim not processed

## Issues

1. Did Liberty Mutual Fire Insurance raise a new defense pursuant to 28 Texas Administrative Code §133.307?
2. Is the carrier's reason for denial of payment supported?
3. Is Memorial Compounding Pharmacy (Memorial) entitled to reimbursement for the compound in question?

## Findings

1. In its position statement, Liberty Mutual argued, "The 3/26/18 compound medication was not denied as requiring preauthorization, as investigational or as experimental. It was denied as not medically necessary following completion of a retrospective medical necessity review."

28 Texas Administrative Code §133.307(d)(2)(F) states, in relevant part, "The response shall address only those denial reasons presented to the requestor prior to the date the request for MFDR was filed with the division and the other party. Any new denial reasons or defenses raised shall not be considered in the review."

Review of the submitted documentation finds that Liberty Mutual Insurance failed to present a medical necessity denial to Memorial in accordance with 28 Texas Administrative Code §133.240 prior to the date the request for medical fee dispute resolution (MFDR) was filed. The division concludes that this defense presented in Liberty Mutual Insurance's position statement shall not be considered for review because this assertion constitutes a new defense pursuant to 28 Texas Administrative Code §133.307(d)(2)(F).

2. The requestor is seeking reimbursement of \$798.06 for drug(s) dispensed on March 26, 2018. The carrier denied the disputed compound with claim adjustment reason code P12 – Workers' compensation jurisdictional fee schedule adjustment.

28 Texas Administrative Code §134.503 applies to the compounds in dispute and states, in pertinent part:

- (c) The insurance carrier shall reimburse the health care provider or pharmacy processing agent for prescription drugs the lesser of:
  - (1) the fee established by the following formulas based on the average wholesale price (AWP) as reported by a nationally recognized pharmaceutical price guide or other publication of pharmaceutical pricing data in effect on the day the prescription drug is dispensed:
    - (A) Generic drugs:  $((AWP \text{ per unit}) \times (\text{number of units}) \times 1.25) + \$4.00$  dispensing fee per prescription = reimbursement amount;
    - (B) Brand name drugs:  $((AWP \text{ per unit}) \times (\text{number of units}) \times 1.09) + \$4.00$  dispensing fee per prescription = reimbursement amount;
    - (C) When compounding, a single compounding fee of \$15 per prescription shall be added to the calculated total for either paragraph (1)(A) or (B) of this subsection; or
  - (2) notwithstanding §133.20(e)(1) of this title (relating to Medical Bill Submission by Health Care Provider), the amount billed to the insurance carrier by the:
    - (A) health care provider; or
    - (B) pharmacy processing agent only if the health care provider has not previously billed the insurance carrier for the prescription drug and the pharmacy processing agent is billing on behalf of the health care provider.

The compound in dispute was billed by listing each drug included in the compound and calculating the charge for each drug separately as required by 28 Texas Administrative Code §134.502(d)(2). Each ingredient is listed below with its corresponding reimbursement amount as applicable.
