FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

The compound in question was denied during prospective review for medical necessity. The carrier attached a copy of documentation that supports an adverse determination as required by 28 Texas Administrative Code §133.307(d)(2)(I)

Findings

The service in dispute is a compounded medication. Applicable 28 Texas Administrative Code §134.530 states that preauthorization is only required for any prescription drug created through compounding prescribed before July 1, 2018 that contains a drug identified with a status of "N" in the current edition of the ODG Treatment in Workers' Comp (ODG) / Appendix A, ODG Workers' Compensation Drug Formulary, and any updates.

Although the compound in dispute did not contain an “N” drug, the prescriber in this case voluntarily sought preauthorization or prospective utilization review from the carrier. As a result, the carrier performed utilization review. The carrier presented evidence that it performed the utilization review in accordance with Insurance Code, Chapter 4201 and Chapter 19, Subchapter U of the Texas Administrative Code. Additionally, the carrier presented evidence that it performed utilization review prior to or concurrent with the processing of the medical bill in dispute as required by 28 Texas Administrative Code §133.240.

The prescriber’s request for preauthorization was denied. Both the prescriber and Memorial Compounding Pharmacy were notified of the denial. There is no evidence that the prescriber or Memorial sought reconsideration of appeal of the denial.

For that reason, we conclude that no payment is due.

**Conclusion**

The prescriber requested preauthorization for the compound in dispute. The preauthorization request was denied. Memorial Compounding Pharmacy was notified of the denial. No payment is due.

**ORDER**

Based on the submitted information the division has determined that the requestor is not entitled to reimbursement for the services in dispute.
