FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

- 1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
- 2. 28 Texas Administrative Code §134.503 sets out the fee guidelines for pharmaceutical services.
- 3. 28 Texas Administrative Code §134.530 sets out prior authorization requirement for pharmacy services.
- 4. The insurance carrier reduced payment for the disputed services with the following claim adjustment codes:
 - 197 Precertification/authorization/notification absent

Issues

- 1. Is the insurance carrier's reason for denial of payment supported?
- 2. Is the requestor entitled to reimbursement for the compound in question?

Findings

1. The requestor is seeking reimbursement of \$592.57 for medication dispensed on April 27, 2018. The carrier denied based on lack of preauthorization.

For the dates of service in dispute the applicable rule is 28 TAC §134.530(b)(1)(A) which states that preauthorization is **only** required for:

• drugs identified with a status of "N" in the current edition of the ODG Treatment in Workers' Comp (ODG) / Appendix A, ODG Workers' Compensation Drug Formulary, and any updates;

DWC finds that the medication rendered on the date of service in question is not a drug identified with a status of "N" in the current edition of the ODG, *Appendix A*.

The medication does not require preauthorization and the carrier's denial is not supported. The disputed medication will be reviewed for reimbursement.

- 2. 28 TAC §134.503 (c) states, in pertinent part:
 - (c) The insurance carrier shall reimburse the health care provider or pharmacy processing agent for prescription drugs the lesser of:
 - (1) the fee established by the following formulas based on the average wholesale price (AWP) as reported by a nationally recognized pharmaceutical price guide or other publication of pharmaceutical pricing data in effect on the day the prescription drug is dispensed:
 - (A) Generic drugs: ((AWP per unit) x (number of units) x 1.25) + \$4.00 dispensing fee per prescription = reimbursement amount;
 - (B) Brand name drugs: ((AWP per unit) x (number of units) x 1.09) + \$4.00 dispensing fee per prescription = reimbursement amount;
 - (C) When compounding, a single compounding fee of \$15 per prescription shall be added to the calculated total for either paragraph (1)(A) or (B) of this subsection; or

Drug	NDC	Generic(G) /Brand(B)	Price /Unit	Units Billed	AWP Formula	Billed Amt	Lesser of AWP and Billed
Lyrica	00071101668	G	\$8.92	60	\$668.84	\$592.57	592.57
-						Total	\$592.57

The total reimbursement is \$592.57. This amount is recommended.

Conclusion

The outcome of each independent medical fee dispute relies upon the relevant evidence presented by the requestor and the respondent at the time of adjudication. Though all the evidence in this dispute may not have been discussed, it was considered.

For the reasons stated above, the Division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is \$592.57.

ORDER

Based on the submitted information, pursuant to Texas Labor Code Section 413.031 and 413.019 (if applicable), the division has determined the requestor is entitled to additional reimbursement for the disputed services. The division hereby ORDERS the respondent to remit to the requestor \$592.57, plus applicable accrued interest per 28 Texas Administrative Code \$134.130, due within 30 days of receipt of this order.
