Findings

This dispute regards occupational therapy services performed in an outpatient facility. Such services are not paid under Medicare’s Outpatient Prospective Payment System (OPPS) but using Medicare’s Physician Fee Schedule. Per *DWC’s Hospital Facility Fee Guideline*, Rule §134.403(h), if Medicare reimburses using other fee schedules, services are paid using DWC guidelines applicable to the code on the date provided. *DWC Medical Fee Guideline for Professional Services*, Rule §134.203(c), requires the maximum allowable reimbursement (MAR) be determined by applying Medicare payment policies modified by DWC rules. The MAR is the sum of the geographically adjusted work, practice expense and malpractice values multiplied by the DWC annual conversion factor.

When more than one unit is billed of therapy services designated by multiple-procedure payment indicator ‘5’, Medicare policy requires the first unit of therapy with the highest practice expense for that day be paid in full. Payment is reduced by 50% of the practice expense (PE) for each extra therapy unit provided on that date.

Reimbursement is calculated as follows:

- Procedure code 97140 (July 12 and July 16, 2018) has a Work RVU of 0.43 multiplied by the Work GPCI of 1.007 is 0.43301. The practice expense RVU of 0.35 multiplied by the PE GPCI of 0.986 is 0.3451. The malpractice RVU of 0.01 multiplied by the malpractice GPCI of 0.747 is 0.00747. The sum is 0.78558 multiplied by the DWC conversion factor of \$58.31 for a MAR of \$45.81. For each extra therapy unit after the first unit of the code with the highest PE, payment is reduced by 50% of the practice expense. The PE for this code is not the highest for the date billed. The PE reduced rate is \$35.75 at 2 units each is \$71.50, multiplied by 2 dates of service is \$143.00.
- Procedure code 97140 (July 18, July 24, July 25, and July 30, 2018) has a Work RVU of 0.43 multiplied by the Work GPCI of 1.007 is 0.43301. The practice expense RVU of 0.35 multiplied by the PE GPCI of 0.986 is 0.3451. The malpractice RVU of 0.01 multiplied by the malpractice GPCI of 0.747 is 0.00747. The sum is 0.78558 multiplied by the DWC conversion factor of \$58.31 for a MAR of \$45.81. For each extra therapy unit after the first unit of the code with the highest PE, payment is reduced by 50% of the practice expense. The PE for this code is not the highest. The PE reduced rate is \$35.75, at 1 unit each multiplied by 4 dates of service is \$143.00.

The total recommended reimbursement for the services in dispute is \$286.00. The insurance carrier paid \$286.00. No additional payment is recommended.

Conclusion

For the reasons stated above, the division finds that the requestor has not established that additional reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based on the submitted information, pursuant to Texas Labor Code Section 413.031, the division hereby determines the requestor is entitled to \$0.00 additional reimbursement for the services in dispute.
