FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

- 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
- 28 Texas Administrative Code §134.503 sets out the fee guidelines for pharmaceutical services.
- 28 Texas Administrative Code §134.530 sets out prior authorization requirement for pharmacy services.
- The insurance carrier reduced payment for the disputed services with the following claim adjustment codes:
 - 197 – Precertification/authorization/notification absent

Issues

1. Is the insurance carrier's position supported?
2. Is the insurance carrier's position supported?
3. What rule is applicable to reimbursement?

Findings

1. The respondent states in their position, "ODG does not support the use of compounded products."

28 TAC §133.240 (q) states

(q) When denying payment due to an adverse determination under this section, the insurance carrier shall comply with the requirements of §19.2009 of this title (relating to Notice of Determinations Made in Utilization Review). Additionally, in any instance where the insurance carrier is questioning the medical necessity or appropriateness of the health care services, the insurance carrier shall comply with the requirements of §19.2010 of this title (relating to Requirements Prior to Issuing Adverse Determination), including the requirement that prior to issuance of an adverse determination the insurance carrier shall afford the health care provider a reasonable opportunity to discuss the billed health care with a doctor or, in cases of a dental plan or chiropractic services, with a dentist or chiropractor, respectively.

Review of the submitted adverse determination found insufficient evidence to support the health care provider was notified of the adverse determination in any way.

28 TAC §133.307 (d)(F) states

The response shall address only those denial reasons presented to the requestor prior to the date the request for MFDR was filed with the division and the other party. Any new denial reasons or defenses raised shall not be considered in the review. If the response includes unresolved issues of compensability, extent of injury, liability, or medical necessity, the request for MFDR will be dismissed in accordance with subsection (f)(3)(B) or (C) of this section.

Review of the submitted explanation of benefits found the denials presented prior to MFDR were not based on an adverse determination.

As the requirements of the two rules shown above were not met, the disputed services will be reviewed per applicable fee guideline.

2. The requestor is seeking reimbursement of \$702.68 for a compound dispensed June 17, 2018. The insurance carrier denied the disputed service for lack of preauthorization. However, 28 TAC 134.530 (c) states in pertinent part,

(A) drugs identified with a status of "N" in the current edition of the *ODG Treatment in Workers' Comp* (ODG) / Appendix A, *ODG Workers' Compensation Drug Formulary*, and any updates;

(B) any prescription drug created through compounding prescribed before July 1, 2018 that contains a drug identified with a status of "N" in the current edition of the *ODG Treatment in Workers' Comp* (ODG) / Appendix A, *ODG Workers' Compensation Drug Formulary*, and any updates;

(C) any prescription drug created through compounding prescribed and dispensed on or after July 1, 2018; and

(D) any investigational or experimental drug for which there is early, developing scientific or clinical evidence demonstrating the potential efficacy of the treatment, but which is not yet broadly accepted as the prevailing standard of care as defined in Labor Code §413.014(a).

Review of the compound ingredients find none listed to be classified as a "N" drug. The insurance carrier's denial is not supported.

3. 28 TAC Code §134.503 (c) applies to the compound in dispute and states, in pertinent part:

- (c) The insurance carrier shall reimburse the health care provider or pharmacy processing agent for prescription drugs the lesser of:
- (1) the fee established by the following formulas based on the average wholesale price (AWP) as reported by a nationally recognized pharmaceutical price guide or other publication of pharmaceutical pricing data in effect on the day the prescription drug is dispensed:
 - (A) Generic drugs: $((\text{AWP per unit}) \times (\text{number of units}) \times 1.25) + \4.00 dispensing fee per prescription = reimbursement amount;
 - (B) Brand name drugs: $((\text{AWP per unit}) \times (\text{number of units}) \times 1.09) + \4.00 dispensing fee per prescription = reimbursement amount;
 - (C) When compounding, a single compounding fee of \$15 per prescription shall be added to the calculated total for either paragraph (1)(A) or (B) of this subsection; or
