**FINDINGS AND DECISION**

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

**Background**

1. 28 Texas Administrative Code §133.307, effective May 31, 2012 sets out the procedures for resolving a medical fee dispute.
2. 28 Texas Administrative Code §134.600, effective March 30, 2014, requires preauthorization for specific treatments and services.
3. 28 Texas Administrative Code §137.100, effective January 18, 2007, sets out the use of the treatment guidelines.
4. 28 Texas Administrative Code §134.203, effective March 1, 2008, sets out the fee guidelines for

reimbursement of professional medical services provided in the Texas workers' compensation system.

5. 28 Texas Administrative Code §134.225, effective July 7, 2016, sets the reimbursement guidelines for FCEs.
6. The insurance carrier reduced payment for the disputed services with the following claim adjustment codes:
  - 197-Payment denied/reduced for absence of precertification/authorization.
  - APPR-Reimbursement is being withheld as the treating doctor and/or services rendered were not approved based upon handler review. If you require additional information regarding this bill decision. Contact the claim handler.
  - 309-The charge for this procedure exceeds the fee schedule allowance.
  - P12-Workers' compensation jurisdictional fee schedule adjustment.
  - AUTH-Payment denied/reduced for absence of or exceeded, pre-certification/authorization. Pre-authorization was not obtained and treatment was rendered without the approval of treating doctor.
  - W3-Additional payment made on appeal/reconsideration.

### **Issues**

Is the requestor entitled to reimbursement for CPT code 97750-FC rendered on October 16, 2018?

### **Findings**

1. The requestor is seeking medical fee dispute resolution for CPT code 97750-FC-GP rendered on October 16, 2018 in the amount of \$506.24.
2. According to the explanation of benefits, the carrier denied reimbursement for the disputed FCE based upon a lack of preauthorization and the fee guideline.
3. The respondent wrote, "The claimant had FCE's performed on 3/8/2016, 4/26/2016 and 7/5/2016. 10/16/2018 would equate to the fourth, which requires preauthorization."
4. The requestor contends that reimbursement is due because "The cpt code utilized does not need prior authorization under TDI rules and regulations."
5. 28 Texas Administrative Code §134.600(p)(12) requires preauthorization for:

treatments and services that exceed or are not addressed by the commissioner's adopted treatment guidelines or protocols and are not contained in a treatment plan preauthorized by the insurance carrier. This requirement does not apply to drugs prescribed for claims under §§134.506, 134.530 or 134.540 of this title (relating to Pharmaceutical Benefits).

The requestor billed CPT code 97750-FC for the diagnosis "S93609A-Unspecified sprain of unspecified foot, initial encounter."

According to the Fitness for Duty Chapter of the Official Disability Guidelines (ODG), an FCE is a recommended treatment; therefore, it does not require preauthorization.

6. The applicable fee guideline for FCEs is found at 28 Texas Administrative Code §134.225.
7. 28 Texas Administrative Code §134.225 states:

The following applies to functional capacity evaluations (FCEs). A maximum of three FCEs for each compensable injury shall be billed and reimbursed. FCEs ordered by the division shall not count toward the three FCEs allowed for each compensable injury. FCEs shall be billed using CPT code 97750 with modifier "FC." FCEs shall be reimbursed in accordance with §134.203(c)(1) of this title. Reimbursement shall be for up to a maximum of four hours for the initial test or for a

division ordered test; a maximum of two hours for an interim test; and a maximum of three hours for the discharge test, unless it is the initial test. Documentation is required. “

8. The division reviewed the submitted documentation and finds:

DATE	CODE BILLED	CODE DESCRIPTION
March 8, 2016	97750-FC	Functional Capacity Evaluation
April 26, 2016	95834	Range of Motion and Muscle Testing
July 5, 2016	Neither party submitted a copy of the bill	
October 16, 2018	97750-FC	Functional Capacity Evaluation

9. 28 Texas Administrative Code §134.203(c)(1) states “To determine the MAR for professional services, system participants shall apply the Medicare payment policies with minimal modifications. (1) For service categories of Evaluation & Management, General Medicine, Physical Medicine and Rehabilitation, Radiology, Pathology, Anesthesia, and Surgery when performed in an office setting, the established conversion factor to be applied is \$52.83.”

28 Texas Administrative Code §134.203(c)(2) states “The conversion factors listed in paragraph (1) of this subsection shall be the conversion factors for calendar year 2008. Subsequent year's conversion factors shall be determined by applying the annual percentage adjustment of the Medicare Economic Index (MEI) to the previous year's conversion factors, and shall be effective January 1st of the new calendar year. The following hypothetical example illustrates this annual adjustment activity if the Division had been using this MEI annual percentage adjustment: The 2006 Division conversion factor of \$50.83 (with the exception of surgery) would have been multiplied by the 2007 MEI annual percentage increase of 2.1 percent, resulting in the \$51.90 (with the exception of surgery) Division conversion factor in 2007.”

On the disputed dates of service, the requestor billed CPT code 97550-FC (X12). CMS published Medical Learning Network (MLN) Matters, effective January 1, 2011 which states in part “Many therapy services are time-based codes, i.e., multiple units may be billed for a single procedure. The Centers for Medicare & Medicaid Services (CMS) is applying a MPPR to the practice expense payment when more than one unit or procedure is provided to the same patient on the same day, i.e., the MPPR applies to multiple units as well as multiple procedures. Full payment is made for the unit or procedure with the highest PE payment. For subsequent units and procedures, furnished to the same patient on the same day, full payment is made for work and malpractice and 80 percent payment for the PE for services furnished in office settings and other non-institutional settings and at 75 percent payment for the PE services furnished in institutional settings.” The multiple procedure rule discounting applies to the disputed service.

The Division conversion factor for 2018 is \$58.31.

The Medicare conversion factor for 2018 is 35.9996.

Review of Box 32 on the CMS-1500 finds that the services were rendered in zip code 77076 which is located in Houston, Texas; therefore, the Medicare locality is “Houston, Texas.”

The Medicare participating amount for CPT code 97750 is \$39.06.

Using the above formula, the MAR is \$63.26 per unit. The requestor billed for 8 units; therefore, \$63.26 X 8 + multiple procedure discounting = \$382.18. The respondent paid \$0.00. The difference between MAR and amount paid is \$382.18; this amount is recommended for reimbursement.

**Conclusion**

For the reasons stated above, the Division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is \$382.18.

**ORDER**

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Sections 413.031 and 413.019 (if applicable), the Division has determined that the requestor is entitled to additional reimbursement for the services involved in this dispute. The Division hereby ORDERS the respondent to remit to the requestor the amount of \$382.18 plus applicable accrued interest per 28 Texas Administrative Code §134.130, due within 30 days of receipt of this Order.
