FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

- 1. 28 Texas Administrative Code §134.540(b)(2) and (3) set out preauthorization requirements for compounds subject to certified health care networks.
2. The insurance carrier denied the compound in question based on preauthorization.

Issue

Is reimbursement due for the service in dispute?

Findings

This compound was dispensed on August 14, 2018. Applicable amended Rule at 28 TAC 134.540 (b)(2)(3) states, in pertinent part, that preauthorization is **only** required for any prescription drug created through compounding prescribed and dispensed on or after July 1, 2018.

According to the adoption preamble, new section (b)(2)(3) **DOES NOT APPLY** to prescriptions for compounded drugs written before July 1, 2018, and refills for those prescriptions. Therefore, for compounds dispensed on or after July 1, 2018, a copy of the physician’s initial prescription is necessary for the division to make an informed decision about whether preauthorization is required.

Prior to the filing of this dispute, the division notified Memorial that a copy of the original physician’s prescription must be included with all disputes involving compounds dispensed on or after July 1, 2018. In this case, Memorial failed to include the prescription.

Memorial has failed to provide prescription evidence sufficient to support its assertion that preauthorization was not required. Memorial has therefore failed to meet its burden to prove that reimbursement is due.

Conclusion

For the reason stated above, the division finds that the requestor has not established that reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based on the submitted information, pursuant to Texas Labor Code Section 413.031, the division hereby determines the requestor is entitled to \$0.00 additional reimbursement for the services in dispute.
