REQUESTOR'S POSITION SUMMARY

Requestor's Position Summary: "The purpose of this letter is to inform you that payment for services provided to the above referenced patient does not comply with Chapters 134.403 and 134.404 of Texas Administrative Code. CPT code 97530 was billed with modifier GP which allows services delivered under an outpatient physical therapy plan of care reimbursable."

Amount in Dispute: \$56.38

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: "State markup would not be 200% as this is specifically designated for APC rates and PT codes are paid per the CMS RBRVS physician fee schedule, the mark up for the RBRVS is calculated using the CMS Conversion Factor divided by the Division Conversion Factor."

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

- 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
- 28 Texas Administrative Code §134.403 sets out the reimbursement guidelines for outpatient hospital services.

3. 28 Texas Administrative Code §134.203 sets out the reimbursement guidelines for professional medical services.
4. The insurance carrier reduced payment for the disputed services with the following claim adjustment codes:
 - 434 – This procedure code is not reimbursed when billed with another mutually exclusive procedure code on the same date of service
 - P12 – Workers’ compensation jurisdictional fee schedule adjustment
 - 356 – This outpatient allowance was based on the Medicare’s methodology (Part B) plus the Texas Markup

Issues

1. Is the carrier’s reduction of payment supported?
2. Is the requestor entitled to additional reimbursement?

Findings

1. The requestor is seeking additional reimbursement for outpatient therapy services performed from September 4 – 28, 2018. The carrier reduced the allowed amount as P12 – “Workers’ compensation jurisdictional fee schedule amount.”

The applicable Division Rule is found in 28 TAC §134.403. The applicable sections are listed below:

(d) For coding, billing, reporting, and reimbursement of health care covered in this section, Texas workers' compensation system participants shall apply Medicare payment policies in effect on the date a service is provided

The Medicare payment policy is found in OPSS reimbursement formula factors at <https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/HospitalOutpatientPPS/Addendum-A-and-Addendum-B-Updates.html>. The specific factor is the Status Indicators. The status indicator for each of the HCPCS code listed on the DWCO60 have an “A” status indicator which is defined as, “Not paid under OPSS. Paid by MACs under a fee schedule or payment system other than OPSS.”

28 TAC §134.403 (h) states,

For medical services provided in an outpatient acute care hospital, but not addressed in the Medicare payment policies as outlined in subsections (f)(1) or (f)(2) of this section, and for which Medicare reimburses using other Medicare fee schedules, reimbursement shall be made using the applicable Division Fee Guideline in effect for that service on the date the service was provided

The applicable Division fee guideline is found in 28 TAC §134.203. The calculation of the reimbursement amount is shown below.

2. 28 TAC §134.203 (c) (1) states.
 - To determine the MAR for professional services, system participants shall apply the Medicare payment policies with minimal modifications.
 - (1) For service categories of Evaluation & Management, General Medicine, Physical Medicine and Rehabilitation, Radiology, Pathology, Anesthesia, and Surgery when performed in an office setting, the established conversion factor to be applied is (date of service yearly conversion factor).

Compliance with 28 Texas Administrative Code 134.403 (d) requires application of the Medicare Multiple Procedure Payment Reduction (MPPR) implemented April 1, 2013. The MPPR policy may be found in the CMS Claims Processing Manual 100-04, Chapter 5, section 10.7 found at www.cms.gov. The MPPR policy was used in the calculation of the maximum allowable reimbursement.

The MAR is calculated by the DWC Conversion Factor of 58.31/Medicare Conversion Factor 35.9996 multiplied by the Medicare allowable. **To ensure the appropriate application of the MPPR reductions all services billed for each date will be calculated.** The calculation is as follows:

The total allowable reimbursement for the services in dispute is \$1,792.09. The carrier paid \$2,135.98. No additional payment is recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has not established that additional reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based on the submitted information, pursuant to Texas Labor Code Section 413.031, the division hereby determines the requestor is entitled to \$0.00 additional reimbursement for the services in dispute.
